*The Best of the Old and
the Best of the New*

for **1951**

**DESCRIPTIVE
PRICE LIST**

EARL E. PLATELL
AURORA, OHIO

A FEW WORDS

The writing of a catalogue is a very interesting, although a somewhat laborious task. It involves considerable reference work, a checking to see that the listings are correct as to size, color classification, etc. and it calls for an expression of an opinion, as far as our own ideas are concerned, as to the relative value of a variety. The opinions we express are those of our own, and are called as we see the flower, not because somebody said that such and such a variety was very good. Maybe it was good for him, but we want to see it in our own fields.

The growing season this year was on the whole, rather on the cool side. Ample rain except for about a three week spell in August, kept everything growing nicely. A dusting of Arasan was made on all bulbs before planting and the results were so good that we intend to try it again this year. It is so much easier than soaking the bulbs—both from a time point of view and from the ease in handling. Bulbs are placed in a large bag, with several spoons full of Arasan and shaken good, resulting in a dusting of the bulbs with the powder. We have dug the cleanest set of bulbs this year that we have ever seen. No trace of scab has been found. Our fields are rogued regularly and all suspicious bulbs are dug and burned. Both the fields and the stock after digging are state inspected.

Our stock is quality stock—we do not go in to raise bulbs by the millions. We can quote some varieties in thousand lots, and if you are interested in such quantities, please drop us a line, asking for quotations.

Please note that all bulbs as shipped have been dusted with a mixture of DDT and Arasan, so be sure to wash your hands after handling them. Most of the bulbs will not show any trace of the dusting when you receive them, but nevertheless, everyone has been treated.

NEW DEPARTURES

During the past season, we raised a considerable number of miniatures and a special section of the catalogue has been set aside to cover them. We have listed some of the 300 sized glads as miniatures, and left others of the 300 sizes in the regular catalogue. Some of the 300 glads, take Vagabond Prince for instance, do not class as miniatures due to the build of the spike, while others such as Lavender and Gold have natural qualifications for miniature work. Our stocks of miniatures are not too big, although on some varieties we can quote by the hundred. Full comments are found under varieties.

We have been somewhat sold on the miniatures for several years—finding that they work up in arrangements very nicely—particularly so for table work, small arrangements such as your wife wants for her dinner party, her club meeting, etc. We think that the scheduling committees for the various shows should emphasize arrangements calling for miniatures, more than they do. Then, when you go a show, you could appreciate their possibilities. True, most of us like the big massive display, but just the same, some very beautiful work can be done with the miniatures, if the proper encouragement is given.

We also tried an experiment this year with Australian varieties, shipped direct from Australia after digging in February or March. The bulbs and bulblets were received about the middle of May and were planted at once. We got anywhere from two to ten of a variety, and where we had enough, placed some of them with other growers to try. Most of the bulbs bloomed but as most of them received were

size 4 or 5, we did not expect too much from them. In most cases, had we planted a similar lot of American 4s and 5s, we would probably had about the same results. We did see the color of the variety, we got an idea of how it would grow, and we had in most cases a large bulb, fully acclimated to grow on this year. In addition we got some bulblets which should make good growth this year. For further details, please see our comments under AUSTRALIAN VARIETIES

ABOUT PRICES

Unless otherwise marked, prices on bulbs are for one bulb, to get the price on ten bulbs multiply the each price by 8. To get the price on 100 bulbs, multiply the each price by 64. To illustrate, take a price of 2/15c. The price of one is 12½cx8 or \$1.00 the price of ten. The price of 100 would be 12½cx64 or \$8.00.

The prices we quote are as low as we can make them. We aim to furnish quantity bulbs, and this makes the cost somewhat higher—more care must be exercised in roguing, questionable bulbs that might not be diseased are destroyed, and this includes some of the high priced ones too. Labor, chemicals, and all the other items were higher, and the trend is towards even prices this coming year. We prepay all retail orders over \$2.50 and the smaller shipments will go forward by parcel post unless you direct otherwise. Shipment by express is the safest and if you wish shipment made that way, we will include extra bulbs to cover the collect express charges.

THIS PRICE LIST SUPERSEDES ALL PREVIOUS LISTS

SHIPPING

March 1st is about the earliest we ship, but shipments can be made any time if made by express or given special handling. Write us, and we will work out a way to satisfy you.

EARLY ORDERS

If you were on the shipping end of this business, you would certainly appreciate the difference between the early and the late orders. The early ones get the best of the bulbs and probably the most extras. The later orders, due to the rush of things at that time of the year, are up against a variety being sold out, or being out of certain sizes. We would suggest early ordering, with instructions to ship late, if you are in a late growing belt. That way, your order is filled early in the year, and shipped out when you desire. Orders sent after the middle of March should, if possible provide for substitutions in size or variety.

EXTRAS

Having been on the receiving end of lots of shipments in the past, we can appreciate the inclusion of extras, either in the way of overcount or in other newer varieties. It has been our practice in the past to include extras on all orders. The amount included depends upon the size of the order and the time we receive it.

We would appreciate your suggestions as to what you would like in extras. We cannot always give you what you would like, but at least we get an idea of what you are interested in, and can be guided in what we include.

PLANTING INSTRUCTIONS

Planting instructions will be included in all shipments—the latest up to date instructions, prepared by experts.

EXPLANATION OF LISTINGS

A variety will be listed as follows:

ADORATION (Klein 48)

70 days

460

Adoration is the variety name.

Klein is the name of the originator.

48 stands for the year of introduction.

70 days, is the average time from planting until blooming of a large bulb. Smaller sizes will take longer.

460 is the color classification and size.

SIZE

"L" indicates large size bulbs, measuring more than 1½" in diameter.

"M" indicates a medium size bulb, ¾" to 1½" in diameter.

"S" indicates a small bulb, under ¾" in diameter.

"B" indicates bulblets.

Large bulbs will give you the best bloom—but they cost you more.

Medium sizes will frequently produce good show spikes and will produce saleable spikes.

Small sizes will as a rule, bloom, but the spike they produce is not as good as you would get from a larger sized bulb. Once in a while, a variety will produce saleable spikes from small bulbs, but do not count on it. Small sizes are the cheaper, but they take a year longer to get the best results—as a rule, they will produce large bulbs for the following season.

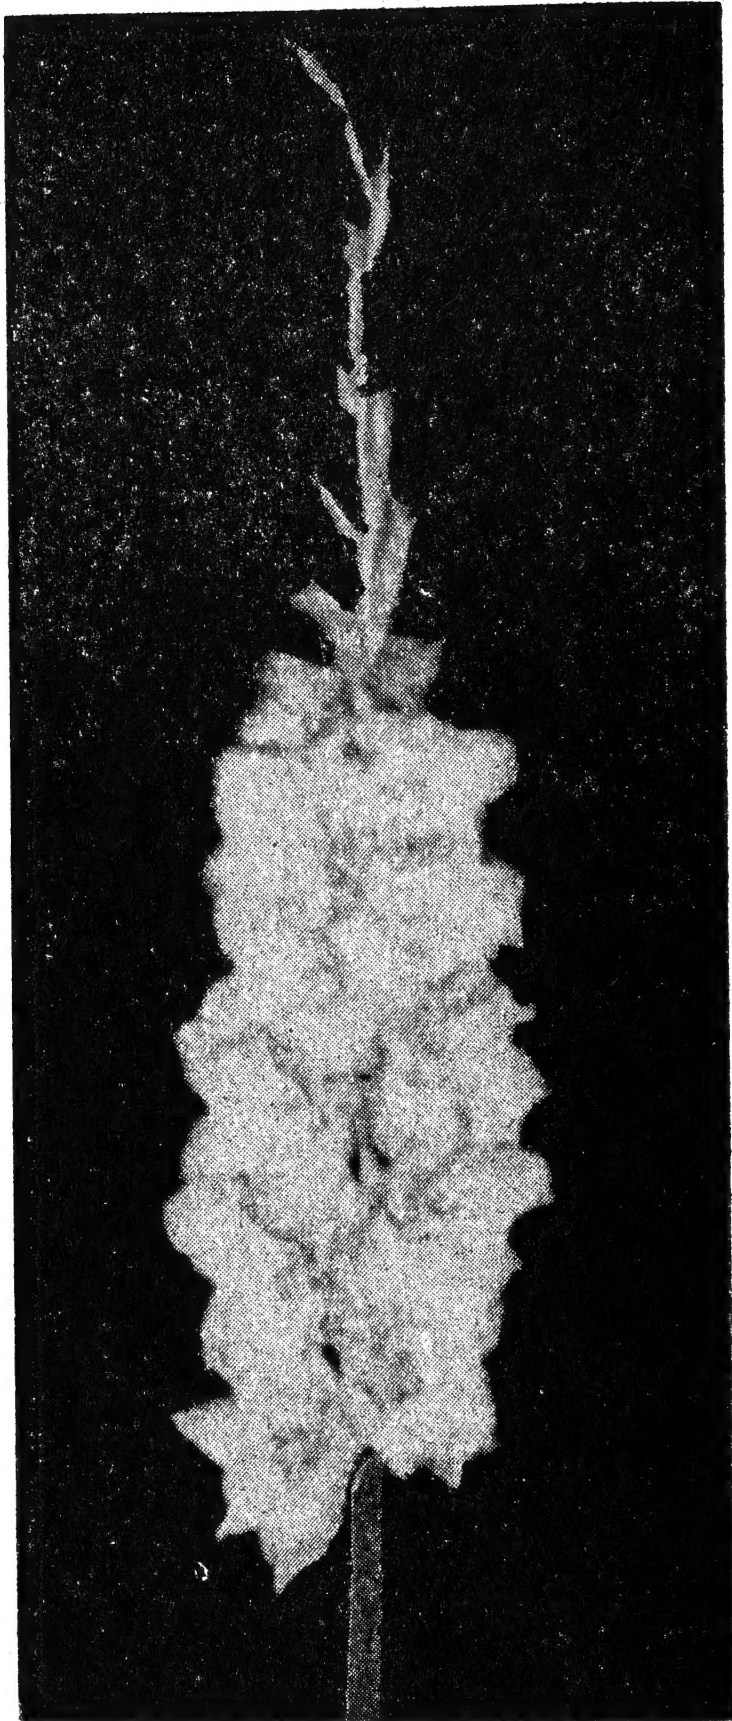

Bulblets or cormlets are the cheapest way of getting a start in a variety, but also the slowest way. With good growing conditions and particularly with some varieties, you may get large bulbs, but it is far safer to figure on getting a few medium and a number of small bulbs the first year. These, planted the next year, will generally give you large bulbs for the second year. Some bulblets are hard to germinate and you may get a very poor stand. Others will germinate readily. If possible, peel or crack the hard shell of the bulblet before planting. We ran an experiment in the greenhouse last year on this. A row of peeled bulblets, a row of cracked bulblets and a row without any special preparation. The peeled bulblets were the first to appear, followed by the cracked bulblets and then by the test bulblets. The peeled bulblets were up two to four inches before the first test bulblet was through the ground.

SUBSTITUTIONS

We will not substitute unless you give us permission to do so. We would appreciate permission to substitute sizes if possible, and we would also like to be able to substitute varieties, especially late in the season when our stocks are depleted.

GUARANTEE

We guarantee our bulbs to be true to name and free from disease or thrip. Please open the package immediately upon receipt, examine carefully, and if not satisfactory, advise us at once. All of us make errors once in a while and if any of the bulbs are found to be not as represented, we will either refund your money on their return, or we will replace the unsatisfactory stock. However, we can at no time be liable for more than the original amount paid for the bulbs. Due to conditions beyond our control, we are not responsible for the growth of bulbs or bulblets. All orders are placed with this understanding. Both the fields and the bulbs have been state inspected, giving us added assurance that we are shipping disease and thrip free bulbs.

GOLDEN FLUTE

Joseph M. Hartman

GOLDEN FLUTE — Joseph M. Hartman

Last year we had the pleasure of introducing Golden Flute for Mr. Hartman. We are offering it again this year—with more winnings to add to its glory.

A heavily textured light yellow with a rose stripe on a medium deep yellow lip petal. Florets are large, up to 7", they are beautifully ruffled, waved and fluted—not only do they grow that way for Mr. Hartman, but for others too. There were a number of them at the shows this year that were stiff competition to any one.

Golden Flute will reach about 60" in the field, with a long flower head up to 28". It has 16 to 18 buds with seven to eight open at one time, and with about four more in color. The spike is balanced well, in spite of the large sized florets. Attachment is very good for the large sized florets. Foliage is tall, heavy and very healthy.

Golden Flute classifies as 511, and it is a cross of Shirley Temple and Grand Opera. Bulblet production and germination is fair.

Show Record

1945—Grand Champion and largest floret (7½") at Chagrin Falls, Ohio. The same spike with the lower two florets removed took a first and Section Champion at Cleveland, Ohio, two days later.

1947—Grand Champion at Toledo, Ohio.

1948—"A" rating at Binghamton International Show.
Seedling Champion at Wellsville, Ohio; Toledo, Ohio; Chagrin Falls, Ohio, Greenville, Pa.

Award of Merit, Detroit, Mich.

Grand Champion at Evans Seedling show, Solon, Ohio.

Top scoring three spike entry at Evans Seedling show.

1949—Seedling Champion, Largest Floret and Reserve Champion at Wabash, Ind.

American Home Achievement Winner at Wabash, Indiana, with a score of 86.

Seedling Champion at Grove City, Pa.

A long list of firsts, too numerous to mention.

PRICE \$5.00 for any size bulb—five bulblets and one bulb,
any size for \$10.00

You may think the price is high.—but after you have seen it grow, I think you will be well satisfied with your investment.

ABU HASSAN (K&M 47) 80 days 378

Abu Hassan is in a class by itself. Jet black buds open into a very dark indigo blue. Grows well, does not crook. Opens 4 to 6 buds on a 16-18 bud spike. The addition of two or three spikes to a bouquet seems to bring out the color of the other spikes. Has a flower head of 18 to 24 inches and a spike from 26 to 42 inches. Attractive and interesting if you like the dark blues.

L 2-25c M 3-25c S 5-25c B 50-25c

ADORATION (Klein 48) 70 days 460

A rosy orchid edging on a creamy white throat gives Adoration an attractive and appealing touch. A very nice glad, crisp in appearance. Opens 5 to 7 florets on a nice straight willowy stem. Early and fills a spot that is open for that color early in the season. Not a big spike, but plenty big enough to move on the commercial market.

Price L-35c M-25c S 2-25c B 10-25c

ALGONQUIN (Palmer 39) 80 days 536

One of the old standbys in scarlet. A brilliant scarlet with a light marking down the center rib. Grows well and makes a good exhibition and a excellent commercial. Holds 6 to 8 needlepointed florets open on a well proportioned spike. Strong grower with a tall spike.

L 3-25c M 5-25c S 10-25c B 100-25c

ALICE ADAMS (Briggs 49) 80 days 442

A very pretty pink with a very marked break in the pink and then a white throat. A really pleasing combination of colors. Holds 6 open 10 buds in color and has 18 to 20 buds on a tall well proportioned spike. So far, haven't found anything but good points. Should make a good commercial when better known.

L 25c M 2-40c S 3-30c B 10-25c

ALJECHIN (K&M 50) 85 days 470

A deep glistening violet purple with the color darkening towards the throat. Attachment is good, spike is medium tall and straight. Opens well when cut tight. Healthy grower and good propagator. Good exhibition and has commercial possibilities.

Price L 25c B 10-25c

ALL GLORY (Toon 46) 70 days 423

An intense orange with a very striking purple blotch, one of those that you like or you do not like. Opens 6 medium large florets on good spikes, tall and straight with good placement and good attachment. Burns in the hot sun, so it must be picked and opened inside.

Price L-25c M 2-25c S 4-25c B 25-25c

ALOHA (Graff 50) 95 days 516

The color of a ripe apricot, shading lighter towards the throat. Opens 6 or more well placed blooms and straight wiry stems. Looks interesting and worthy of trying.

Price L \$2.50 M \$2.00 S \$1.50 B 10-\$2.00

ANNAMAE (Pommert 40)**70 days****400**

A white with no trace of cream in it. Very early and a good commercial for the early market. Bud sheaths are dark colored, somewhat detracting from its overall beauty, but otherwise very good. Straight spike 26-42 inches, with a flowerhead of 20-24 inches. Opens 4 to 6 with about 6 buds in color. One of the first to bloom and brings a good price on the wholesale market for that reason.

L 3-25c M 5-25c S 10-25c B 100-25c

ANNETTE (Dowling 48)**85 days****500**

A large plain open petaled pure white. A combination of large sized florets with strong growth, but with good attachment. Holds 6 to 8 florets open on a good spike. Have had some very nice spikes from this one.

Price L 25c M 2-25c S 5-25c B 10-25c

ANZACS (Both 45)**80 days****500**

An exceedingly large clean white, ruffled, which will hold about 8 open on tall wiry stems. Has a good record for winnings in Australia. Medium fair as a propagator.

Price L 40c M 30c S 20c B 10-40c

ATHENE

ARIA (Kuhn 48)**78 days****242**

See miniature listing.

ATATURK (Salman)

A dark purple on the black side. Looks like a very good addition to the dark purple class. Propogates well. Holds 6 open on tall straight spikes, with placement and spacing very good.

Price L 50c B 10-25c

ATHENA (Koerner 45)**75 days****266**

See miniature listing.

ATHENE (Kuhn 49)**75 days****400**

A white, on the unusual side of the list. It never crooks, its placement is lots open on a long flower head. Its perfect, it's tall, 20 or more buds, with texture is very heavy and it seems to stand hot winds very nicely. Add to this a pure white shading to a cream throat and you have something that you are proud to take to a show.

Price L \$2.00 M \$1.50 S 75c B 10-\$1.50

ATLANTIC (B&P 46)

75 days

422

We were very much sold on Atlantic from the first time it bloomed and each season seems to increase our liking for it. A vivid red orange (Coral) that really opens up 10 to 12 florets without any par-care. Not just on one spike, but right down the row. It is early, its color is attractive, it makes a tall well balanced and nicely tapered spike, placement is excellent and will make an excellent commercial after a swing around the show tables. This is one that you should have by all means.

Price L 20c M 15c S 10c B 20-25c

ATOM (Hedgecock 46)

80 days

236

See miniature listing.

AUREOLE (Pruitt 49)

80 days

410

Pure clean medium yellow, nicely ruffled, with yellow stamens — no trace of any other color. The ruffling gives a slight shading to the yellow, and takes away any plainness one would expect from a self color. Holds 5 to 6 open and a medium tall spike. Balance of spike is perfect, tapering all the way up. If you do not have Aureole, be sure to get it—I am sure you will like it very much.

Price L 2-25c M 4-25c S 8-25c B 50-25c

BABS (Pruit 45)

68 days

210

See miniature listing.

BALLAD (Palmer 42)

90 days

440

Does not make a great big spike, but does make one that works well in arrangements. A very pretty light salmon pink, shading very gradually and nicely into a creamy throat. Florets are not large for the 400 class, but a nicely ruffled and very crisp in appearance. Your wife will snap on to this one for her bouquets and other work in the house. Opens 4 to 6 on a medium tall slender wiry stem.

L 3-25c M 5-25c S 10-25c B 50-25c

BEACON (Palmer 35)

90 days

437

Tall, straight, husky spikes of clear bright rose scarlet with a pronounced creamy blotch, with 6 to 8 open. Some of these old timers are still hard to beat, and among them Bacon rates with the best.

L 3-25c M 5-25c S 10-25c B 100-25c

BEAUTY'S BLUSH (Fisher 47)

85-90 days

440

This is too light to be classed pink and too much pink to be classed white. A little more of either color would add a lot to its value. Opens 7 or 8 large 5" florets at one time. Placement and facing excellent, good grower and propagates well. Has a 24" flower head and a 42-45 inch spike. Combines well with pink and white or lavender.

L 2-25c M 3-25c S 4-20c B 100-40c

BERNECE (Gray 38)**80 days****390**

Deep golden yellow flaked with bronze. Holds 4 or 5 open on a fairly short stem. 15 buds. From this description, it hardly appears interesting, but somehow, it seems to go over big. It is early, and seems to have an appeal in the early summer when the florists are tired of the old standby colors. Works up beautifully in corsage work. Planted late, it blends well with fall colors. All told, from an exhibition point of view it isn't worth much, but for arrangements and corsage work it is excellent.

L 3-25c M 5-25c S 10-25c B 50-25c**BETTER TIMES (K&M 46)****80 days****376**

A very nice light blue with a very clean color. Deep violet marking in throat, with a white tip. Performance is good—holds about five open on a good spike.

Price L 2-25c M 4-25c S 8-25c B 25-25c**BETTY'S CHOICE (Harris 45)****85 days****362**

A nice 300 glad in a rosy mauve, nicely ruffled and an attractive color. Holds 6 open on a good spike. Attachment good. Reminds one very much of Coutt's Orchid, except as to size.

L 2-25c M 3-25c S 5-25c B 25-25c**BIRCH RED (Rich 45)****90 days****552**

One of the large deep reds that is good. 6 to 8 large wide open florets on an 18-20 bud, tall strong spike. Placement is good. spike is tall and straight with no evidence of crooking. Inclined to burn a little in the hot sun, so pick early and open inside.

L 50c M 40c S 25c B 10-25c**BLACK CHERRY (Rich 48)****85 days****554**

A very dark red, almost black with wide open triangular shaped florets. Attractive, good spike, with about 6 open. If you like the black reds, you should certainly look at this one. Somewhat hooded.

Price L \$2.00 M \$1.50 S \$1.00 B 20c each**BLACK OPAL (Errey 36)****90 days****354**

Hard to beat anywhere, even if it is an old timer. Dark red, 8 to 10 open, tall straight husky spikes. Hard to beat on the show table, and a good commercial. Somehow, we never seem to have enough of this variety.

Price L 3-25c M 5-25c S 10-25c B 100-25c**BLACK PANTHER (Lins 43)****80 days****554**

A tall husky spike with lots of color. Doesn't open only 5 or 6, but the florets are large and the buds above are partially open, giving one a tall tapering spike. Very dark red, wide open florets with plenty of buds showing color. This is a good dark red.

Price L 35c M 25c S 2-30c B 20-25c

BLESSED DAMOSEL (Baerman 44) 95 days 440

In spite of its short spike, we like Blessed Damosel very much. A waxy textured glowing shell pink, with a creamy throat. Really a beautiful color combination. Holds 5 or 6 open on a nicely balanced tapering spike. Spike is well balanced, but lacks buds to compete in the shows. Your wife will like this one for arrangement work.

L 3-25c M 5-25c S 10-25c B 100-25c

BOISE BELLE (Roberts 48) 100 days 343

You have a soft spot in your heart for any glad that brings you a grand champion, but when you have a whole row of grand champion spikes, all alike in performance, growth, and beauty, it really rates. Creamy yellow florets with a well defined pink halo even to a dainty edging of pink on the lip petals. It will open 8 to 12 florets, 6 to 8 in color and make a 22-24 bud spike. Not only just one or two in a row, but a whole row of them, one after the other. Florets are beautifully ruffled, well placed and well spaced and the spike tapers from bottom to top. A little late growing, so plant early to make the shows. An all around good glad. Needs large bulbs to get best results.

L \$1.00 M 75c S 50c B 10-75c

BOLD FACE (Evans 47) 85 days 533

Well named. An outstanding brilliant deep salmon with a white throat, on which is a vivid black red brush mark. Large wide open florets, ruffled to give it a firmness, usually well place and well faced on an exceedingly strong tall spike. An all around good one and if you grow for the shows, do not pass this one up.

L 50c M 40c S 30c B 10-25c

BOLERO (Leffingwell 41) 85 days 582

One of those glads that you either like or dislike very much. Personally, we rather like its smoky orange with the dark red blotch. Florets are fluted, ruffled and needle pointed with heavy texture. A most unusual combination, which with 5 open on a medium tall wiry stem, the odd and unusual florets, the unusual color, makes a very interesting glad.

Price L 3-25 M 4-25c S 5-25c B 50-25c

BONFIRE (Fischer 50) 80 days 436

A large wide open scarlet with lots of color. Should be very good and we will hear more about it when more widely introduced. 6 or more clean cut florets open on a good spike.

Price L 50 M 35c S 25c B 4-25c

BOULOGNE (Salman 47) 85 days 562

A lot of the European glads are "just another glad" but not so for Boulogne. It is a clear wine red, very similar in color to Burma, but without Burma's ruffling. Hold 8 open on tall husky spikes, good propagator, in fact, a good all around glad, one you are proud to take to the shows. Moves very well on the wholesale market. Recommended.

L 2-25c M 4-25c S 10-25c B 50-25c

BROWN ORCHID (Van Voorhis 40) 85 days 290

See miniature listing.

BUCKEYE BRONZE (Wilson 40) 90 days 490

A very attractive color, a very interesting floret—a glad that appeals to the florist, the showman, and to the wife at home. Beautifully ruffled bronze, a little on the reddish side, with six open on a medium tall tapering spike. Reasonable in price—one of the “must haves.” Use large bulbs for best results.

L 3-25c M 5-25c S 10-25c B 50-25c

BURGUNDY (Scheer 42) 90 days 452

If you like the darker reds, Burgundy is an attractive one to add to your list. Has a slight rosy cast but passes for dark red without any question. Holds 6 open nicely placed florets on a very nice spike.

L 2-25c M 3-25c S 5-25c B 25-25c

BURMA (Palmer 43) 85 days 562

A ribbon of dark rose ruffled florets show on the spike before the first floret opens, as nearly all the buds show color before any open. When open you have a deep dark rose, shading lighter in the throat, with lots of ruffling. Florets are well placed and are grown on tall straight spikes. Will hold 6 to 8 open.

L 3-25c M 5-25c S 10-25c B 50-25c

BUTTERSCOTCH (Langworthy 48) 90 days 517

A soft buff with a salmon tinge to it, with a blotch of rose salmon making good color combination. Large, somewhat ruffled florets, 6 or more open, on tall, nicely balanced spikes. Attachment, placement, propagation and germination good. Quite a splash of color in the garden.

Price L 25c M 20c S 2-30c B 15-25c

CAPTAIN KIDD (Roberts 50) 80 days 452

To use Mr. Roberts description, a glowing deep blood red without markings, is about as good a description as one can give. Close to a black red. 6-7 open on tall spikes. Seems to stand heat and sun very well. Propagates good.

Price L \$3.00 M \$2.25 S \$1.50 B 25c each
10 \$2.00

CARNIVAL (Butt 47) 85 days 437

Another one that draws your eye from afar. A combination of scarlet red with an unusually attractive white spot or throat mark. Very attractive if you like startling combinations. About 8 open on an 18 bud spike with a medium tall spike. Florets are well placed and well attached. Looks good, both for show and commercial. Propagates well.

L 25c M 2-30c S 3-20c B 25-25c

CASABLANCA (Majeski 44) 95 days 400

One of the very good commercial whites. 6 to 8 open, lots of buds in color, nicely ruffled, with tall straight spikes. A little on the late side, but with the constant demand for good whites, it is very easy to move. Good, all around.

L 3-25c M 5-25c S 10-25c B 50-25c

CATHAY (Palmer 48) 85 days 412

A beautiful shade of medium yellow, clear, with large ruffled blooms of excellent substance. Opens 4 to 6 on a flower head of about 16 buds.

Price L 50c M 35c S 20c B 10-25c

CHAMOUNY (Baerman 38) 85 days 360

Here is a glad that is very hard to beat on the show table, and one that the florists like also. There is a silver edging on all the petals, showing off the cerise rose shade in the petals to good advantage. With a little care, will hold 10 open. Spikes are tall, straight, placement is excellent. Tops for performance, color and beauty.

L 3-25c M 5-25c S 10-25c B 50-25c

CHARMAINE (New 40) 75 days 360

A rose that is really early and for this reason moves well on the wholesale market. A darker throat adds contrast to the lighter edges. It has a crisp appearance and opens well when cut in tight bud. Wins its share of ribbons on the show table because of its nice appearance.

L 3-25c M 5-25c S 10-25c B 50-25c

COLOR MARVEL (Kreuger 46) 75 days 316

An orange yellow that makes a very attractive spike. Has a slight pink cast. Opens 5 on an 18-20 bud spike, tall and wiry. Once in a while you will have a misplaced floret but most of them are good. Attractive color, blending well with other colors. Good grower and good propagator.

L 2-25c M 4-25c S 6-25c B 25-25c

COMPLEXION (Bastian 47) 90 days 442

Very good this year—shell pink, with 8 open on good tall straight spikes. Nicely ruffled. Crisp, well attached florets with no flecking. Should do well both for show and commercial.

Price L \$2.00 M \$1.50 S \$1.00 B 10-25c

CONNECTICUT YANKEE (Schenetsky 44) 90 days 441

An excellent performer, winner on the show table and a good commercial. Opens 8 or more florets on tall husky spikes, but does not taper enough to make a really beautiful spike. Color is pink of a nice shade, but the sharp orange scarlet blotch detracts considerably in our opinion, from its beauty. Well grown, you have a contender for section champ in any show. For a commercial, the florists will take them all.

L 20c M 2-30c S 3-30c B 10-20c

CONNIE G (Woods 48) 75 days 506

We were very much sold on Connie G from the first time we saw its heavily ruffled cream floret. There is a yellow throat, blending well with the cream. Florets are very firm, well attached with the possible exception of the first floret. Will hold 6 to 8 open, with an equal number of buds. Florets do not open until most of the spike is in color. Bulbs are sometimes watermarked, but that does not seem to hurt in any way, the growth or germination. Have not been able to hybridize either with it or on it.

Price L \$2.00 M \$1.50 S \$1.00 B 2-30c

CORONA (Palmer 40) 80 days 560

So well known as to hardly need a description. Our stock has the rose picotee edging sharply defined. Cream white petals shading deeper in the throat. Excellent for both show and commercial—a good keeper—a favorite of everyone who sees it.

L 3-25c M 5-25c S 10-25c B 50-25c

COUTT'S ORCHID (Coutts 41) 85 days 560

A light orchid rose, unmarked, with a cream throat. Some bulbs will produce a light edging around the floret. Large round petal florets, a little on the soft side with 6-8 open. Very attractive to most people.

Price L 3-25c M 5-25c S 10-25c B 50-25c

COVER GIRL (La Salle 45) 90 days 542

We picked some very attractive spikes of Cover Girl this year. Medium pink with 6 to 8 open on tall straight spikes. Florets are nicely ruffled and well placed. Very good show flower and well liked by the florists.

L 2-25c M 4-25c S 10-25c B 50-25c

CRACKER JACK (Allen 46) 80 days 425

Here is a deep orange that moves well on the wholesale market. The orange shades to yellow in the throat, and there is a red blotch deeper in the throat. 6 open, 6 in color, about 18 buds on a medium tall straight spike. Fairly early and hits the markets at the right time. Also a good show flower.

L 2-30c M 3-30c S 4-25c B 25-25c

CRIMSON TIDE (Roberts 45) 90 days 452

Maybe not a winner on the show table, but nevertheless, a very attractive gladiolus. Deep glowing crimson red, with a small white mark in the throat which sometimes extends down the mid rib. Florets are like velvet, beautifully ruffled and very appealing. Makes up nicely in bouquets. Not too tall, not too many open, just a good all around spike that you can use anywhere. Florists like it very much and I think you will also.

L 35c M 25c S 20c B 10-25c

CRINKLE CREAM (Ellis 40) 85 days 410

Another one of those that are good, but lack enough open and length of spike, which, nevertheless, make up beautifully in vase or basket work. Clear light yellow with large ruffled florets. Holds about four open on a balanced tapering spike, a spike that is not very tall, but which works well any place but on the show table. Will not win there, but elsewhere, it is very well liked.

L 2-25c M 4-25c S 10-25c B 50-25c

See miniature listing.

CUPID (Fisher 49) 70 days 300

See miniature listing.

DAISY MAE (Lins 45) 90 days 521

Daisy Mae because of its husky growth and all around good performance deserves a place in any catalogue. Color is an orange salmon with a little blotch of cherry red. Not a very nice color combination in our estimate. Wins at the show because of its ability to hold 6 to 8 open, its superior spikes. Good commercial.

L 2-25c M 4-25c S 10-25c B 50-25c

DANNY DANTON (Kaylor 46) 90 days 452

A tall growing black red with wide open florets. We seem to have very good success with it and if you like the dark reds, be sure to try it. Tall husky spikes, with 6 or more open, good placement and good facing. Florets are firm and well attached.

Price L 2-25c M 4-25c S 8-25c B 25-25c

DAYDREAM (Roberts 47) 70 days 430

A very early blooming ruffled pale pink, holding 6 to 8 open. Florets are large and well placed. Performance is not all that could be desired, some short heads, and considerable flecking. Its earliness of course, makes up for some of these defects.

Price L 25c M 2-25c S 3-30c B 25-25c

DEBORAH SAMPSON (Scheer 47) 85 days 440

Soft pink and creamy buff, a pretty pastel blend. Holds 6-8 open on tall spikes, florets are well placed and have good attachment. Has the makings of a good commercial.

Price L 25c M 2-25c S 4-25c B 10-25c

DIADEM (Lines 46) 75 days 460

Fragrant—one of the few fragrant glads that are pretty enough to grow. Two tones of rose, blending very attractively into a cream throat. Color might be better but on the whole an attractive flower with a fragrance that is noticeable. Cut one, take it inside, and see for yourself the next day.

L \$1.00 M 75c S 50c B 15-\$1.00

DIEPPE (Hassel 45) 85 days 436

A very attractive dark salmon red, with a darker blotch in the throat. Holds 6 to 7 open on a very good spike. Excellent substance lightly ruffled. An all around good flower, for show or commercial.

Price L 2-25c M 4-25c S 10-25c B 25-25c

DIXIE BELLE (Lins 40) 100 days 222

See miniature listing.

DOLLY VARDEN (Harris 50) 95 days 532

A very pleasing surprise for a new introduction, and one of those which more than lived up to advance notices. A huge salmon with a white throat, the white carrying down the midrib. Grows tall, has a very nice flowerhead, well proportioned. Has the makings of a good show glad and a good commercial.

Price L \$2.00 M \$1.25 S 75c B 20c each

DOLORES (Vasturo 43) 75 days 240

See miniature listing.

DONELLA (Wright 47) 65 days 340

A very pretty color combination, especially so in a variety so early in blooming. A pretty shade of pink on a white throat. Holds 4 to 6 open on a medium tall spike with a total of 16 to 18 buds. Spike is well balanced and tapers nicely. If you grow for the early market, be sure to try Donella, it is very good for that purpose. To get the best results use large bulbs.

Price L 3-25c M 4-25c S 8-25c B 50-25c

DONNA (Pruitt 40) 95 days 416

Just to describe Donna as a golden buff, hardly seems to answer. We like it very much, a very attractive ruffled beauty that holds 6 open on tall straight stems. The whole spike seems to draw your eye, even though it is not a "Worldbeater." Florists like it very much and it blends well with other colors.

Price L 3-25c M 5-25c S 10-25c B 50-25c

EASTER PARADE (Briggs 49) 70 days 400

An early white that is good, immaculate, and without any color markings. Has enough sparkle to make it very attractive. Opens 5 to 6 on long straight spikes with a nicely balanced flowerhead. Should make a good addition to the early white market.

L 25c M 2-30c S 3-30c B 25-50c

ELIZABETH THE QUEEN (White 41) 85 days 566

Elizabeth the Queen is usually in the race and pretty well to the front at all times. A light mauve lavender, beautifully ruffled large florets and medium tall spikes. Our rainy season this last year produced some extra tall spikes and that may be the answer to the complaint that it grows stubby. Holds 6 to 8 open and one spike is almost a bouquet in itself.

L 3-25c M 5-25c S 10-25c B 50-25c

ESSA MARIE (Coutts 46) 85 days 542

A good light pink, smooth and soft, almost a self color, but one of the ones that seldom takes a prize at the shows. Attractive color, fair spike, but one that will work into arrangements and bouquets very well.

Price L 3-25c M 4-25c S 8-25c B 50-25c

EUREKA (Fairweather 48) 90 days 500

A Picardy sport, much on the order of Leading Lady, but much whiter in color. Its creamy throat on the white petals, its growing habits, tall spikes, straight, good germination and propagating habits, make it very interesting. Grows very much like Picardy, with flowers about 5½" in size. Has a tendency to show a Picardy reversion in some flowers.

Price L 25c M 2-25c S 3-25c B 15-25c

EVANGELINE (Palmer 48) 92 days 560

An exhibition flower that is outstanding. 8 to 10 pink florets, somewhere between light and pale pink, on tall straight spikes, nicely tapering in outline. Recommended for trial, especially if you exhibit at the shows or like to raise outstanding varieties for your own use.

L \$1.00 M 60c S 40c B 10-50c

EXEMPLAR (Kreuger 44) 100 days 332

If you are interested in a very good small salmon, nicely ruffled, opening 6 to 8 on medium tall straight spikes, you should look at Exemplar. Planted early, it just blooms in time to make the late shows, where it is stiff competition. We like it very much as it works up good in smaller arrangements and is well liked by the florists.

L 2-25c M 3-25c S 5-25c B 50-25c

FAIR ANGEL (Hatch 42) 85 days 400

A very nice cream white, shading deeper cream in the throat. A nice commercial, opening well when cut tight, and will win on the show bench. Holds 6 or more open on tall, well proportioned spikes.

L 3-25c M 5-25c S 10-25c B 50-25c

FAIRY (Kuhn 46) 75 days 266

See miniature listing.

FAIRY FANCY 75 days 206

See miniature listing.

FAY (Jack 45) 75 days 440

A very early salmon pink with a cream throat. Depending upon weather, can be clear or flecked. Husky spike with 6 open, tapering in outline. It is early and makes the early market. Good for floral work as its huskiness makes it stand up. Opens well when cut tight.

Price L 3-25c M 5-25c S 10-25c B 50-25c

FILIGREE (Kuhn 45) 80 days 216

See miniature listing.

FIREBIRD (Kuhn 47) 75 days 436

A nice clean red, almost the color of fire, but inclined to crook. In spite of that fault, it is attractive and looks good commercially. Opens up to 8 on tall spikes.

Price L 25c M 2-25c S 4-25c B 25-25c

FIREBRAND (Butt 44) 85 days 452

Could have been called rosebud without a question as the buds remind one very much of a rosebud just about to open. Medium red with a sparkle that attracts. A fine white stripe on the lower petal adds to its beauty. Tall spikes, many open florets and five or six rosebuds in color. Healthy, propagates well, and an all around good one.

L 3-25c M 5-25c S 10-25c B 50-25c

FIRERIDER (Feurreiter) (K&M 47) 105 days 450

Late, but otherwise very good. Rich vermillion red, very attractive in color. Large florets, heavily textured, well formed, and well placed on medium tall spikes. Fits into the late picture very nicely, both from the commercial and the show point of view.

Price L 2-25c M 3-25c S 5-25c B 25-25c

FLICKER (Kuhn 46) 75 days 221

See miniature listing.

FLORENCE NIGHTINGALE (Harris 47) 88 days 400

Could almost rate a 500 the way it grew this year. 6 or more, large wide open florets that seem to stay crisp several days after picking. Florets are nicely arranged and placed on tall tapering spikes. Attachment good, although we had some crooking this year, but usually the spike was straight and tall. Good propagator.

L 25c M 20c S 15c B 10-50c

FLOWER GIRL (Dowling 47) 70 days 200
See miniature listing.

FLYING FORTRESS (Wilson 43) 93 days 586

A giant smoky lavender gray with a very bright red feather. Makes a very spectacular spike with 8 or more open. Strictly a show flower but if you like them big, with a huge blotch of color, try it. Has won for most open and longest flowerhead which in itself is a good recommendation.

Price L 2-30c M 2-20c S 3-25c B 25-25c

GENE (Farrington 49) 72 days 310

A medium shade of yellow with heavily ruffled florets. Will hold 6 to 8 open, with placement good on nice strong medium tall stems. A good addition to the yellow class.

Price L 50c M 35c S 25c B 10-25c

GENERAL EISENHOWER (Salman 48) 85 days 542

Very large florets of a deep pink shade with up to 8 open on tall strong stems. One of the newer ones that seem to have something much desired by all of us—a good show flower and a good commercial. Florets are very large and come well placed. It is a healthy grower and a good propagator.

Price L 15c M 2-20c S 4-20c B 50-25c

GENGHIS KAHN (Scheer 41) 80 days 432

A medium shade of pink, with heavily ruffled florets. Spike is tall and carries the florets in a well arranged well attached manner. Will hold up to 8 open on a 16-18 bud spike. Propagates well. Has good commercial prospects.

Price L 2-25c M 4-25c S 8-25c B 25-25c

GILT EDGE (Kuhn 42) 80 days 250

See miniature listing.

GLAMIS (Palmer 40) 90 days 530

Light salmon with pointed florets—6 or more open on tall straight spikes. Very dependable, good commercial and basket flower. Just in the 500 class on the floret size.

L 3-25c M 5-25c S 10-25c B 50-25c

GRACE ESTELLA (Youmans 45) 85 days 430

One of those glads that never makes the show table, but which you keep growing year after year because of its beauty. Listed as a light, salmon, but more on the pink side to our way of thinking. The color is beautifully blended with a cream throat, making an almost perfect pastel combination. Holds about 6 open on a medium tall stem, with attachment, proportion, facing, etc., all good.

Price L 2-25c M 4-25c S 8-25c B 25-25c

GRATITUDE (Fischer 46)**75 days****424**

Tall spikes of salmon orange, the kind that demand your eye, are not too easy to find. Add a sharp yellow throat, nice ruffling, and you have something interesting. In spite of the placement not being perfect, you can get some nice spikes. Stands hot weather well, and makes a good commercial with the added possibilities always of some very good show spikes.

L 2-25c M 3-25c S 5-25c B 25-25c**GRAY DAWN (Both 43)****95 days****486**

We sell out on Gray Dawn every year in spite of increased plantings. A light grey sport of Jalna with attractive large spikes of medium height. Color is unusual and most people are very much attracted to it. Propagates well. Florets, 4 to 6 open are well attached and nicely placed. Spike tapers to the tip. There is considerable variance in the color between spikes.

Price L 3-25c M 4-25c S 10-25c B 50-25c**GRAY SUMMIT (Butt 50)****78 days****486**

If you liked Irak with its clean grey color, you will like Gray Summit more. Probably a better color combination than Irak, for you have a clean smooth gray with a creamy white throat. Vigorous, healthy and will hold 6 or more open on tall spikes. For you smoky fans, here is one to look at.

Price L 50c M 35c S 20c B 10-25c**GREAT LAKES (Kuhn 46)****70 days****476**

A light blue with a spike up to five feet tall, 4 to 6 open, one of the nicest blues we have. Color is clear and unflecked, and shades lighter towards the throat. Very attractive and does not seem to crash when placed with other colors. Makes plenty of large bulblets which germinate easily. Worth the price if you like blues.

L 35c M 25c S 2-25c B 20-25c**GRENADIER (Palmer 44)****85 days****416**

Grenadier grew like a 500 size glad this year. Its light orange buff set it aside from the usual run of buffs. Makes an imposing spike with 6 to 8 open on an 18-20 bud spike. Grows tall and strong. Healthy, good propagator, good show flower and well liked by the florists.

L 3-25c M 5-25c S 10-25c B 50-25c**GRETA GARBO (Pfisterer 37)****85 days****440**

A soft very light pink rose with a cream lip. Very clean and has that clean cut crisp look that so attracts us. Consistent performer, open 6 to 8 florets on a tall strong stem. Very good cut flower, color blending well with other shades, and still wins lots of ribbons on the show table. Good for hybridizing.

L 3-25c M 5-25c S 10-25c B 50-25c**HAROLD K (Knight 49)****85 days****536**

A deep scarlet red that has florets of fine color and heavy substance. Spike is good as is the attachment. Makes a large number of bulblets, not too big in size, but which seem to germinate nicely. One of the newer ones that seems worthy of a look.

Price L \$2.00 M \$1.50 S \$1.00 B 25c each

HAWKEYE RED (Heaton 44) 85 days 450

A sport of Vagabond Prince in a pretty red. Grows somewhat larger than the Prince and probably is a little better all around. Good color, well liked commercially.

Price L 3-25c M 5-25c S 10-25c B 50-25c

H. B. PITT (Both 41) 80 days 430

A light salmon or orange pink with a huge cream colored throat, sharply marked. Holds 6 open on medium tall stiff stems. Moves well on the commercial market.

L 3-25c M 4-25c S 10-25c B 50-25c

HEARTS DESIRE (Fiedler 48) 80 days 540

If you missed getting Heart's Desire, make up for it now. A medium to light creamy pink with heavily ruffled florets, something to "write home about." 6 to 8 open on tall straight spikes, with very good proportions. Raised some excellent spikes this year, and we saw quite a few at the shows that were very good.

Price L 60c M 50c S 40c B 10-50c

HENRI de GREEVE (K&M 49) 95 days 423

If you like a strong color contrast, look at Henry de Greeve. Salmon orange with a very marked ochre blotch, overlaid with a carmine feather. The color contrast is very noticeable. Opens 6 to 8 on a 20 bud spike with a nicely proportioned flower head. Heavy texture, good attachment, good propagator and a healthy grower.

L \$1.00 M 75c S 50c B 2-15c

HOCUS POCUS (K&M 49) 62 days 213

See miniature listing.

H. R. HANCOCK (Both 43) 80 days 463

Deep cherry rose with a clear creamy white throat. Attractive double row placement with 6 to 8 open. Spikes are husky and medium tall. Opens well when cut in tight bud. A good commercial and when well grown, a good show flower.

L 3-25c M 5-25c S 10-25c B 50-25c

HUGH PRICE (Both 48) 80 days 416

A tall growing salmon buff colored gladiolus. The yellow throat adds to its attractiveness. Holds 6 to 8 open on a very good spike. Well worth looking at.

Price L 75c M 50c S 25c B 10-75c

HUNTRESS (Jack 45) 75 days 466

Two weeks earlier than Minuet, but not as nice a color combination. Much easier to propagate. Somewhat on the pink side of lavender. Fills a hole in the early lavender market very well and moves well on the wholesale markets. Once in a while, it will win on the show table.

L 3-25c M 5-25c S 8-25c B 50-25c

HURRICANE (Evans 42) 80 days 424

A red feather on a light cream throat, bordered by bittersweet orange, with five to six open and a medium tall wiry stem. Makes up wonderfully in basket work. Good propagator and a good commercial. Will win on the show table if well grown. Early.

L 3-25c M 5-25c S 8-25c B 100-25c

INTRUDER (Graff 44) 90 days 536

A large light scarlet red, with just a little white to lighten the throat. Very large, wide open florets, one spike in itself is almost a bouquet. Will open 6 to 8 on a good tall 18 to 20 bud spike. Proportions are good. Good propagator and good commercial.

Price L 2-25c M 4-25c S 8-25c B 50-25c

IRAK (Mitsch 37) 90 days 586

A tall growing nice clear grey with a light orangy red feather on a yellow throat. Will hold 4 to 6 open on a tall spike, but has some tendency to crook. Not a spike to win too frequently on the show table, but just one of those you like—quiet and refined. Our stock of Irak is not too large so orders will have to be limited to not more than six bulbs.

Price L 3-25c M 5-25c S 10-25c B 50-25c

IVY ROBERTSON (Barrett 43) 85 days 440

There is quite an argument about classifying Ivy Robertson as a pink, for while it does have a pink cast to the petals, the yellow and cream throat seem to predominate. It really doesn't belong in either pink or yellow. But, nevertheless, it is a very good glad. Tall, many open, lots of buds in color, a very pretty combination. Can win for most open, and tallest spike. Florists like it particularly when they want to make up an arrangement demanding quite a spread. Foliage has a yellow cast to it. An all around good one.

L 2-25c M 3-25c S 5-25c B 50-25c

JALNA (Palmer 36) 85 days 480

By itself, Jalna is not too interesting, but put it by itself in a bouquet or basket and you have one of the most interesting of combinations. A smokie, with a mixture of rose and salmon, odd but pleasing. When bunched, as in a vase, Jalna is a glad that causes much comment on account of its beauty. Will hold 8 open on medium tall spikes. Placement is always good and spikes are always straight.

Price L 3-25c M 5-25c S 10-25c B 50-25c

JAY'S JOY (Youman 43) 90 days 422

A very tall strong spike that holds 6 to 8 medium orange florets open at one time. Florets have a white center, but the orange will, at times, fleck badly. Otherwise very good and well liked commercially.

Price L 2-25c M 3-25c S 5-25c B 50-25c

JINGLES (Lins 49) 230

See miniature listing.

JOHAN von KONYNENBURG (K&M 47) 85 days 436

A very nice scarlet, one of the best to be introduced from Europe. Spikes are straight, tall with excellent placement and attachment of the florets.

Price L 2-20c M 4-30c S 5-25c B 25-25c

JUNE DAY (Roberts 46) 60 days 441

Planted May 15th, cut July 10th—consistently an early glad. From a color standpoint, it could be improved. Pink, with twin blotches of cherry red—moves well on the early market but not one to win on the show table. Will hold 5 to 6 open on good stem. Propagates well. If you grow for the early market, try June Day.

Price L 30c M 20c S 2-20c B 10-20c

JUNIOR MISS (Canine 44) 80 days 430

If you are looking for a pretty deep salmon pink, with lighter mid ribs and a small cream blotch, here you are—in a very attractive package. Spikes are tall, straight, color is good, attachment and placement good—the florists like it very much.

Price L 3-25c M 5-25c S 10-25c B 50-25c

KAWATIRI (Pupich 47) 85 days 516

Rather erratic in its growing habits, otherwise good. When you get a straight spike of creamy buff florets, each with its yellow throat, with the edges of the petals slightly tinged pink, you have something interesting. The unopened buds are golden buff in color, also with the pink tint. Florets are large, nicely frilled and of a heavy texture. Crooking is its main fault.

Price L 35c M 25c S 2-25c B 15-25c

KENWOOD (Lines 43) 80 days 452

4 to 6 florets opening on tall wiry stems, a Christmas red, no marks, blotches or stripes, describes Kenwood. Good propagator and a good cut flower. Not a winner on the show table but one that makes up well in bouquets.

Price L 3-25c M 5-25c S 10-25c B 50-25c

KEWPIE (Brown 30) 65 days 150

See miniature listing.

KING ALFRED (Hobbs 45) 80 days 532

An orange salmon with a cream blotch, that makes immense spikes. 6 open out of 20 buds on tall straight stems, well proportioned. Interesting from both a commercial and a show viewpoint. One of the few glads that grow exhibition spikes all the time without any particular care, except perhaps staking.

Price L 3-25c M 5-25c S 10-25c B 50-25c

KING CLICK (Wilson 41) 90 days 552

Here is another glad that seems to grow exhibition spikes without any particular care. A beautiful scarlet color, perfect placement, every one tall, straight and sturdy. 6 to 8 open, 18 to 20 buds, nice proportion, healthy, and easily grown to show quality. Good commercial—what more can one want

L 3-25c M 5-25c S 10-25c B 50-25c

KING LEAR (Palmer 38) 75 days 570

Try a basket of this clear deep reddish purple and be surprised. This one really makes up nicely with its long wiry stems, and a silver line on the edge of the petals to relieve the monotony of one color. An old timer, but a good one.

L 3-25c M 5-25c S 10-25c B 100-25c

LADRONE (Palmer 47) 90 days 433

Light rose salmon shading towards scarlet at the tips with a very pronounced light yellow blotch. Reminds one very much of Beacon. 6-8 open, 6-8 in color, and about 20 buds. Tapering spike, with nice proportions. Good propagator.

L 2-30c M 3-25c S 5-25c B 25-25c

LADY JANE (Lake 41) 85 days 406

Actually classed as cream, but had enough yellow to let it pass for a light yellow if needed. Cream with yellow lip petals, slightly ruffled, with 6 to 8 large well placed florets on tall husky spikes. Good show flower and good commercial.

Price L 3-25c M 5-25c S 10-25c B 50-25c

LADY MARIAN (White 48) 85 days 460

A pink lavender rose on tall stately spikes. 6 to 8 open, plenty in color and 20-24 buds. Florets are well attached, nicely placed and spaced. Makes a good all around spike that is a contender at the shows. Color, in our opinion could be better, particularly the throat marking, but its all around performance offsets that to a considerable degree.

L 50c M 40c S 20c B 10-25c

LANCASTER (Palmer 44) 85 days 470

A purple with a silky texture and quite a considerable depth of color. Opens 6 or more on tall straight spikes. One of the best of the purples and if you like the dark shades, you should by all means have Lancaster.

L 2-30c M 3-30c S 5-30c B 50-50c

LAVENDER & GOLD (Baerman 43) 70 days 366

See miniature listing.

LAVENDER DREAM (Goede 48) 85 days 466

A very likeable and attractive lavender with an attractive creamy throat, very clean in color. Makes tall spikes with about 6 open. Our only trouble with it seems to be that it has a tendency to fall over easily. Holds 6 open on an 18-20 bud spike. Color is good and should make the commercial market and the show table.

Price L 2-25c M 3-25c B 15-25c

LAVENDER PRINCE (La Salle 44) 90 days 466

Another one of the lavenders that seems to be good. Tall, husky spikes of mauve lavender, with larker lines in the throat. Holds 4 to 6 open. Good and worthy of a trial.

L 2-25c M 3-25c S 5-25c B 50-25c

LEADING LADY (Johnson 42) 87 days 506

A very well known light cream, that in many cases can be used for white without any difficulty. A very consistent performer and a very consistent winner on the show tables. 6 to 8 large florets open on tall strong spikes. One of the very best glads of today, and one that most anyone can raise to a show caliber.

L 3-25c M 5-25c S 10-25c B 100-25c

LIPSTICK (Balentine 41) 90 days 441

A ruffled shell pink with a bright rose red blotch. Florets are large, ruffled, of good texture and excellent placement and attachment. Spikes are tall and straight. When well grown, has show possibilities, and should make an excellent commercial.

Price L 2-25c M 4-25c S 10-25c B 50-25c

LITTLE GOLD (Fischer 50) 80 days 212

See miniature listing.

LITTLE SWEETHEART (Fisher 48) 85 days 240

See miniature listing.

MADONNA (Bork 42) 85 days 500

Waxy snowy white florets with perfect placement on tall spikes. 18 to 20 buds and nice proportions. Very good germinator and propagator. Excellent all around performer.

Price L 3-25c M 5-25c S 10-25c B 50-25c

MARGARET BEATON (Twomey 37) 85 days 501

A clean snowy white with a scarlet blotch in the throat. Opens about 6 large clean cut florets on long strong spikes. Very attractive, and a glad that has better color value than lots of the highly touted newer ones. Excellent show and commercial.

L 3-25c M 5-25c S 10-25c B 100-25c

MARGARET WOOD (Marshall 47) 80 days 570

A rose purple wine colored glad, shading lighter in the throat, that makes very large florets, 6 to 8 open on tall straight spikes. Makes up well in basket work. Propagates well.

L- 20c M 2-25c S 4-25c B 25-25c

MARION PEARL (Benedict 42) 85 days 532

Mostly a show glad—light salmon shading lighter in the throat. Very attractive with its 6 to 8 florets open, with a medium tall spike, one that never crooks. In a class with stiff competition but good enough to rate.

Price L 3-25c M 5-25c S 10-25c B 50-25c

MAUVIE ROSE (Wesselman 48) 70 days 462

Deep rose blending into a mauve throat. Holds 6 open on a very well proportioned spike. A very consistent performer, early, and a medium good propagator. Could have a little better color and be much more attractive.

L 35c M 25c S 2-30c B 10-25c

MENELIK (Salman 50) 90 days 554

One of the newer black reds that seems very good. A black red, not too dark in the color, with a rosy tinge, blending deeper at the base of the petal. Every spike in the garden was tall and straight, although some trouble was experienced with misplaced florets. Interesting and worthy of a "look."

Price L 50c M 35c B 10-50c

MERRY MAID (Roberts 49) 75 days 440

An early blooming pink, nicely ruffled, with a white throat. Very pretty and attractive. That is our field rating on Merry Maid. 6-7 large 4½" florets of good substance on a good spike. A very good early ruffled pink.

Price L 75c M 50c S 30c B 10-40c

MIGHTY MONARCH (Butt 46) 85 days 552

A velvety textured deep red which holds 8 or more open on tall husky straight spikes. In addition, there will be lots more buds showing color. Overall, very nice as it grows, germinates and propagates well. Spike grows way above average in height.

Price L 25c M 20c S 2-25c B 25-25c

MINUET (Coleman 22) 90 days 466

A beautiful light lavender that has been with us for nearly thirty years. 5 to 6 well placed florets open on a medium height stem, nicely balanced. Bulbiets are very slow and hard to germinate unless kept for two years, otherwise good enough to beat a lot of the present lavenders.

Price L 3-25c M 5-25c S 10-25c B 50-25c

MISS WISCONSIN (Kreuger 43) 90 days 460

This one attracts your eye from afar off, and when you get close, you find a light rose pink holding 6 to 8 open, on a tall strong stem, and probably about 6 buds in color, all nicely faced and placed on the spike. On close examination you might not like the color, but regardless of that, you still have a mighty attractive flower.

L 2-25c M 3-25c S 5-25c B 25-25c

MORNING STAR (Van Prooyen 48) 85 days 500

Seems to have a waxy sheen that gives us a very attractive floret, one which is wide open, flared, with a heavy midrib on the three outside petals, white with just a trace of cream. Holds 6 open on a 16-18 bud spike with very little tendency towards crooking. Its only fault is that it has a reversion tendency as do many of the Picardy sports.

Price L 50c M 35c S 25c B 10-25c

MOUNTAIN GEM (Requa 46) 80 days 436

A very pretty scarlet red, with the edges of the petals sometimes having a light edging. Not a winner at the show for competition is very stiff in the reds, but nevertheless, one that you will like very much. Color is very good, attachment, spike and placing are also good. We like this one very much and the admiration seems to be mutual as far as the florists are concerned.

L 50c M 35c S 25c B 25-50c

MRS. E. BOTH (Both 43) 80 days 530

Mrs. E. Both seemed to perform very well this year, probably because of the cool wet weather we had. Picked lots of spikes with 6 or more open, with plenty of buds in color, and with long tall spikes. When it performs like this, it is worth growing. The color is light orange pink, with a deep clear cream throat, a very pleasing combination.

Price L 2-30c M 4-30c S 8-30c B 25-25c

MRS. R. G. ERREY (Errey 48) 85 days 554

A very good black red from "Down Under". Bigger and smoother by a great deal than Black Opal, but still reminding one of it. Holds 6 to 8 huge dark red round florets open on a good spike. Spike is inclined to crook easily. Spacing and attachment is good.

L 25c M 20c S 2-20c B 25-50c

MYRNA (Pruitt 39) 80 days 400

Like the little girl in the story, when she's good, she's very good and when she's bad, she's awful. Heavily ruffled ivory white, with the buds showing an ivory cast before they open, but turning a clear white after opening. Can hold 6 or more open on very good spikes.

L 3-25c M 5-25c S 10-25c B 50-25c

- MYRNA FAY (Lines 46)** 75 days 466
 Would hardly class this as an exhibition variety as the color is not too good, but it is early and it is an orchid lavender, something needed on the wholesale market. Opens well when cut in tight bud and propagates easily. Will hold 6 to 8 open, well faced, 6 to 8 in color, making a nice tall tapering spike.
 L 25c M 2-25c S 4-25c B 25-25c
- NADIA (Leffingwell 37)** 90 days 231
 See miniature listing.
- NECIA (Both 49)** 85 days 443
 Salmon to deep pink in color with a cyclamen blotch. Grows exceedingly husky with tall spikes. There is a question as to whether this should rate in the 500 class as to size for it certainly is at the top end of the 400 size. Good propagator with both show and commercial prospects. A pleasing color combination, a good grower.
 Price L 50c M 35c S 25c B 10-50c
- NOCTURNE (Fischer 50)** 80 days 354
 Deep rose red, almost to the purple side, beautifully ruffled. Rather on the unusual side, and has a silky texture that seems to focus your eye on it at once. Good grower, germinates well and propagates well. We like it very much.
 Price L \$1.00 M 75c S 50c B 2-25c
- OBERON (Stancer 40)** 75 days 236
 See miniature listing.
- OCTOBER SUNSHINE (Quackenbush 47)** 85 days 420
 A very good color, attractive and interesting. Light orange shading to yellow in the throat, and from a distance, one would almost call it yellow. Stands out in the garden. Good spike, straight, tall and husky with 6 or more open. Well liked on the wholesale market and quite a ribbon winner on the show table. Bottom floret is misplaced at times.
 Price L 35c M 25c S 2-25c B 100-\$1.50
- OGARITA (Wilson 42)** 90 days 532
 Slightly fluted, very crisp, florets of a rose salmon, shading into a gold throat. Holds 6-8 open on very tall straight spikes. One of the strongest growers in the field, spike after spike 5 to 6 feet tall with a very good flowerhead for such a tall grower. Our records indicate about 100 days growing time rather than the 90 listed in official records.
 L 3-25c M 5-25c S 10-25c B 50-25c
- OKLAHOMA (Wilson 45)** 90 days 386
 A very good 300 smokie of pink lilac gray nicely blended in a nicely ruffled wide open floret. Attachement, texture, placement, spike and overall arrangement very good. A very nice smokie and one that fits well in arrangements.
 L 2-25c M 4-25c S 10-25c B 50-25c
- OLD SOUTH (Almey 44)** 85 days 286
 See miniature listing.
- OLIVE MARIE BROWN** 90 days 222
 See miniature listing.

OPECHEE (Sonafrank 49) 90 days 486

Smokie old rose with a lavender overlay. Has a carmine feather on the lower floret. Beautiful color combination with large wide open florets. Holds 8 open on tall straight spikes. Attractive.

Price L \$1.00 B 10-75c

ORANGE BUTTERFLY (Salbach 27) 90 days 222

See miniature listing.

ORANGE GOLD (Marshall 45) 80 days 422

A little more flowerhead on this one would give us a world beater. A beautiful shade of orange, shading gradually to a yellow throat, very, very attractive. Spikes are tall, plants husky, with dark green foliage. Very healthy and a good propagator. Will open about 5 to 6 florets.

Price L 2-25c M 4-25c S 10-25c B 50-25c

OREGON GOLD (Majeski 41) 110 days 410

Too bad this is such a late bloomer as it is very, very nice. A light yellow, clean and crisp in appearance, ruffled enough to give it that firm look. Will hold 6-8 on tall straight spikes. Opens well when cut in the tight bud

Price L 3-25c M 4-25c S 8-25c B 50-25c

ORIENTAL PEARL (Carlson 46) 85 days 506

A giant clear cream, wide open florets which will reach to 7". Opens 4 to 6 florets which are somewhat bunched. A little longer flowerhead and a little more spacing would give us a nice glad. Heavy propagator.

Price L 3-25c M 5-25c S 10-25c B 50-25c

ORPHEUS (Roberts 48) 80 days 423

A bright attractive novelty — one that draws your eye. A bright salmon orange with a very noticeable blotch on a cream center—very noticeable, yet not too contrasty to be objectionable. Opens 6 to 8 ruffled florets on a tall spike.

Price L 50c M 35c S 25c B 10-40c

OSTRICH FEATHERS (Pfitzer 50) 85 days 540

A light peach rose whose florets are very unusual. Lacinated, ruffled and pointed, making a very attractive flower. Growth is good and the spike is well balanced. Stock is limited not more than one to a customer.

Price L 50c B 10-25c

PACTOLUS (K&M 47) 80 days 417

A yellowish colored buff with a startling scarlet blotch on the throat. Very nice color combination which works up very nicely in either bouquet or basket work. Will hold 6 open on medium tall straight stems. Propagates well and seems to be a good all around performer.

Price L 2-25c M 4-25c S 10-25c B 25-25c

PARTHENIA (Hitchcock 49) 90 days 566

A deep lavender, slightly frilled and lightly ruffled. Holds 6-8 open on tall and mostly straight spikes and will give very nice spikes if it gets enough water. We do not like the color too well especially for show work, but it makes up very attractively in basket or bouquet work.

Price L 50c M 35c S 25c B 5-25c

PAUL ROBESON (Cave 43) 95 days 454

Outside of burning in the sun, we have a good glad in Paul Robeson. A beautiful dark red that will open up to 8 florets on a tall well proportioned spike. Color is very good for a dark red and can be recommended.

L 25c M 20c S 2-20c B 25-25c

PEGGY (West 46) 80 days 366

We have recommended Peggy for several years and we still repeat—Peggy is good. A true clean self lavender with no flecking. While a 300 glad, with a spike that is tall and limber, it holds 6 open with about 6 more in color. Not a big one, but just an all around good one.

Price L 40c M 2-40c S 4-40c B 25-40c

PENELOPE (Deam 48) 75 days 466

A mauve lavender which shades to a prominent white throat. Holds 6 open on tall slender wiry stems. There is some peppering of mauve in the throat, but that does not seem to detract in any way. Opens well in water—keep your eye on this one.

Price L 60c M 40c S 25c B 10-50c

PERDITA (Grout 48) 90 days 313

A deep yellow that is offset with scarlet throat darts. Beautiful heavily ruffled florets, 6-8 open and plenty more in color. Spikes are tall. Some inclination to crook, and also towards misplaced florets. When you get a good spike, you have a winner at any show.

Price L \$1.50 M \$1.00 S 75c B 2-25c

PERKY (Hubler 42) 85 days 236

See miniature listing.

PERSIAN RUG (Roberts 50) 90 days 486

A very bright and attractive smoky that is outstanding. Plum and rose with a large, very prominent creamy yellow throat. Holds 6 open on good stems with once in a while a shorter one. Very unusual and pleasing, and one that all the smokie fans will love.

Price L \$3.00 B 25c each

PHANTOM BEAUTY (Bastian 47) 85 days 440

A very clean and very light shell pink, shading darker in the throat. Very good performer, holding up to 10 open. plenty of buds in color and enough more in the tip to make a nice spike. Grows straight. Good propagator and germinates well. We would like a little more color.

Price L 2-25c M 4-25c S 10-25c B 25-25c

PICARDY (Palmer 31) 90 days 530

The old standby—probably the best known glad in the world. Clear soft salmon with a flesh colored throat overlaid with a rose feather. Holds 6 or more large florets open on strong straight stems. Grows well, propagates well and our strain is healthy.

Price L 3-25c M 5-25c S 10-25c B 50-25c

PILLAR OF FIRE (Baerman 43) 100 days 452
 A very deep intense red that seems to be well named. Late, but otherwise worth looking at. Holds 8 or more open on tall straight spikes, with most of the buds showing color. Very attractive color.
 Price L 35c M 25c S 15c B 10-25c

PINK RIBBON (Spencer 42) 90 days 240
 See miniature listing.

POET'S DREAM (Fisher 46) 85 days 366
 A bright clear lavender with a creamy white throat with large florets—that is large for a 300 size glad. Spacing, facing, spike formation all good. Color is very attractive and most everyone likes it.
 Price L 2-25c M 4-25c S 10-25c B 50-25c

POLYNESIA (K&M 50) 90 days 430
 A salmon in a darker shade than Picardy. Holds 8 or more open round florets on a very nice spike. Heavy texture, good placement and good attachment. Has the earmarks of a very good one. Good propagator.
 Price L \$1.00 M 75c S 50c B 2-25c

PROSPERITY (Silvia 47) 85 days 540
 Wide open ruffled florets, closely attached to tall straight spikes with attractive light rose salmon florets shading lighter in the throat. About 6 open, one spike of this is almost a bouquet in itself. Good propagator, and bulblets will frequently bloom. Inclined to be a little top heavy seems to be its only real fault, although this year, we experienced no trouble of this kind.
 Price L 2-25c M 4-25c S 10-25c B 50-25c

QUEEN OF BREMEN (Zimmer 28) 75 days 266
 See miniature listing.

RAVEL (K&M 47) 77 days 477
 A medium shade of violet blue with a quite pronounced red blotch in the throat. Will hold about 6 open on a tall strong stem. Frequent winner at the shows and works well into bouquets, where several spikes seem to deepen the color of the other spikes. Interesting.
 Price L 2-25c M 4-25c S 10-25c B 25-25c

REDOWA (Butt 48) 85 days 552
 One of the better of the newer reds. A scarlet, a little darker than Red Wing. Opens 7-8 florets on tall strong spikes. Florets are 5"—just about right to work nicely into arrangement work. This is one that should stay in the picture for some time to come.
 Price L 35c M 25c S 15c B 25-25c

RED CHARM (Butt 39) 85 days 452
 Red charm is one of the finest all around reds for both commercial and exhibition. 8 open, 6 to 8 in color, tall husky spikes, usually well placed and faced, in a tapering formation. A medium shade of red, with a darker shading in the throat. Good propagator. Its only fault is that the bulbs are inclined to sprout easily in storage, but that does not seem to hurt them in any way.
 L 3-25c M 5-25c S 10-25c B 100-25c

RED CHERRY (Roberts 46) 70 days 436

A medium light cherry red, shading a little bit darker in the throat, a very attractive color. Opens 6-8 wide round florets on tall straight stems, and the proportions are good. An all around good red, with the added advantage of being early. Does not sprout in storage as does Red Charm. Can be recommended without any hesitation.

Price L 35c M 25c S 2-25c B 10-25c

RED RASCAL (Graff 45) 85 days 550

One of the larger reds of excellent substance and color. Has a small white rib running down the center of the throat to the tip of the lower floret. Does not seem to fleck. Holds 6-8 open on medium heavy straight spikes. Does not burn in the sun. Opens well when cut tight.

Price L 50c M 35c S 25c B 10-50c

RED VIKING (McDougall 44) 90 days 452

A fine scarlet with frilled, fluted and needlepointed florets, 6 to 8 open and 4 to 6 buds in color. Tall straight spikes, the kind you like to cut. Not very well known, but certainly worth looking at.

Price L 25c M 2-35c S 2-25c B 5-25c

RED WING (Wright 48) 85 days 436

A really nice scarlet red, with a very good color, darkening a little on the lower petals. Petals are slightly recurved — lightly ruffled. Opens 8 on 20-24 bud spike, with about 6 buds in color. Spike is tall, straight, and very nicely proportioned.. Placement is good, facement very good. A good all around grower, one that you are going to hear a lot about, and one that is going to win at the shows when more are around. As a commercial, it should rate tops, and it makes saleable spikes from the smallest bulbs.

Price L \$1.50 M \$1.00 S 50c B 5-25c

REGAL RED (Fisher 49) 100 days 536

Gave a very good account of itself last year. A large scarlet that makes an imposing spike, tall and sturdy, with 5-6 open, attachment very good for the large 6" florets. Burns in the sun, but opens well when cut fairly tight. Worth a trial. A late bloomer so plant early for the shows.

Price L 25c M 20c S 2-30c B 20-25c

RELIANT (Krueger 48) 115 days 500

A giant in size as far as the plant is concerned, with six or seven spikes making a handful. Florets are about 6" in size white with a blotch of cream and tan. Will have 25 or more buds. Tall and straight and very husky grower. Propagates well. Makes a very good show when allowed to open in the field, particularly if the weather is cool.

Price L 35c M 2-35c S 4-25c B 25-25c

ROMAN GOLD (Canine 40) 85 days 322

A bright orange with an exceptionally bright yellow throat—would almost pass for yellow from a distant view. Not too big a spike, but could class it about normal for a 300 glad.

Price L 3-25c M 5-25c S 10-25c B 25-25c

ROMANY (Youmans 45) 80 days 481

An attractive strawberry colored smoky, with a bluish red blotch. A good performer with about 6 open on a medium tall spike. Good color and seems to be well liked.

Price L 3-25c M 5-25c S 10-25c B 50-25c

ROSA VAN LIMA (Pfitzer 40) 80 days 460

Light rose, clean and clear, shading somewhat darker in the throat, tall husky spikes, 6 open 6 in color. Early, well liked for show and commercial, and above all, dependable at all times.

Price L 3-25c M 5-25c S 10-25c B 100-25c

ROSEA (Errey 40) 85 days 560

A clear rose, opening 6 to 8 large florets. They are the wide open type and come well attached on strong tall spikes. Seems to be well liked by show fans and commercial men.

Price L 2-25c M 3-25c S 5-25c B 50-25c

ROSE CHARM (Fischer 48) 65 days 360

Rose with a cream throat that has a charm all of its own. Very attractive and likeable. 5-6 open on medium tall wiry stems. Very nice for basket work and arrangements. Early good propagator. Attachment good, color good, spike good, what more do you want, particularly as the price is reasonable.

Price L 2-25c M 3-25c S 4-25c B 20-25c

ROSEMAID (Brown) 68 days 260

See miniature listing.

Price L 3-25c M 5-25c S 10-25c B 50-25c

ROSETTE (Kuhn 42) 85 days 260

See miniature listing.

ROSY BELLE (Plummer 48) 262

See miniature listing.

ROYAL GARNET (Haring 44) 80 days 454

A nice dark red with large florets carried and arranged nicely on medium tall spikes. Color is not too dark, and there is a touch of fire red in the throat, adding very much to its overall attractiveness. We like it very much.

Price L 3-25c M 5-25c S 10-25c B 50-25c

RUBY (Kuhn 46) 70 days 252

See miniature listing.

SALMON'S GLORY (Salmon 47) 80 days 507

A light cream with a strong yellow base, on which is a carmine blotch, making an attractive color combination. Smooth petaled florets, wide and round, 6 open 5 to 6 in color, 16 to 18 buds. Spike grows tall and easily supports the large massive flower head. One of the good Holland introductions.

Price L 2-25c M 4-25c S 10-25c B 100-25c

SEASHELL (Roberts 49) 85 days 540

Shell pink on a white petal—very interesting. Lightly ruffled, but with very heavy substance and a texture like satin. Spikes grow tall with about 6 open. A rather unusual glad. Have found some flecking, but otherwise satisfactory.

Price L 75c M 50c S 30c B 10-50c

SENSATION (Marshall 39) 105 days 560

Large spikes filled with large florets of a deep pink with a light cream center. Could be of show caliber for it will hold 6 to 8 open, except for the fact that it is a late bloomer. If you have a long growing season it would pay to look at this one.

Price L 2-25c M 3-25c S 5-25c B 50-25c

SHERWOOD (Pruitt 48) 80 days 470

If you like the color of King Lear, you will like Sherwood, for it seems to be a much improved King Lear. Not quite as large in size, but much better attachment and a much nicer floret arrangement. Will hold six open on a tall strong stem. Florets are ruffled, and do not have the silver edging that King Lear has.

Price L 50c M 35c S 25c B 10-25c

SIBONEY (Allen 48) 90 days 566

With a splendid show record before its introduction, Siboney has lived up to expectations. Clear lavender, of a medium shade, blending a little deeper in the throat. Florets are large and are ruffled, giving the effect of much firmness, and with excellent substance. Attachment, placement and facing are very good, the spike is tall and husky. If you do not have this one, you should try it.

Price L 75c M 50c S 25c B 10-75c

SIGNET (Riley 44) 85 days 400

A clear white beautifully ruffled with six open on tall stems. Makes side shoots that will perform almost as well as the main spike if you do not break them off. Makes plenty of bulblets that germinate well. Can win at the shows but mostly a commercial.

Price L 3-25c M 5-25c S 10-25c B 50-25c

SILENTIUM (Pfitzer 41) 80 days 401

A clear white with a red feather in the throat, very attractive. Holds 6 open on a tall spike, 5 to 6 in color. Dependable, good show flower and an excellent commercial. Propagates well.

Price L 3-25c M 5-25c S 10-25c B 100-25c

SILVERSIDES (Kuhn 47) 70 days 262

See miniature listing.

SILVER WINGS (Ritsema 44) 85 days 500

One of the well known Picardy sports that hardly needs description. A pure white with large ruffled florets on large beautiful spikes. Color is excellent with a waxy appearance that intrigue you. A big winner at the shows and a very good commercial. Has a reversionary tendency as do most Picardy sports, but in spite of that fault, it is one of the best of today's glads.

Price L 3-25c M 5-25c S 10-25c B 50-25c

SINCERITY (Errey 46) 85 days 407

Cream with a scarlet blotch, a flower with lots of contrast. The lower petals shade to darker cream. Holds 6-8 open and good spikes. Good texture, good placement and spacing. Worth looking at.

Price L 25c M 2-30c S 3-30c B 10-25c

SNOWBANK (Palmer 45) 85 days 400

A ruffled white with a creamy throat in the 400 class. Holds 6 to 8 beautifully ruffled white florets open on a good spike, nicely proportioned. A good show flower, frequent winner, and a very good commercial.

Price L 3-25c M 5-25c S 10-25c B 50-25c

SNOWFLAKE (Pfister 48) 100 days 500

Another of the beautiful white, nicely ruffled, with 6 to 8 open on tall straight spikes. A good show flower and a good commercial. A little on the late side, but worth growing if your season is long enough. It is possible that this should be classed as a 400 size glad rather than the 500 size as it is only the very few that reach the 500 size.

Price L 25c M 2-30c S 3-30c B 20-25c

SNOW FLURRY (Clark 48) 90 days 400

Another of the good clean clear pure whites. Has a touch of cream in the throat and buds have an ivory tint until opened. Attachment is good and the wide open florets seem to hug the stem. Has a tendency towards a Picardy reversion, but otherwise a good show and a good commercial.

Price L 25c M 2-30c S 4-25c B 25-25c

SNOW MAID (Cave 48) 85 days 400

A 400 white, snow white, of excellent texture and all around performance. Holds 6 to 8 open on tall straight spikes, every floret being precisely placed on the spike. Healthy. Good exhibition and commercial—opens right up to the tip.

Price L 25c M 2-40c S 2-30c B 15-25c

SNOW PRINCESS (Pfizer 39) 80 days 400

The old standby in white—clear pure white with large, round, wide open florets. Opens well when cut in tight bud, making it a good shipper. Excellent commercial and a contender on the show table.

Price L 3-25c M 5-25c S 10-25c B 100-25c

SNOWSHEEN (Snyder 42) 75 days 300

When well grown, Showsheen is almost a sure winner on the show table. Its glistening sheen of snow white, its tall spikes, well proportioned, and its clean wholesome appearance make it one to put down in the book as a must have. Recommended for both show and commercial work. It has that something that makes a winner.

Price L 3-25c M 5-25c S 10-25c B 50-25c

SPARKS (Glass 47) 95 days 507

Cream, almost classifying as yellow, with a very prominent orange scarlet feather on the lower petal. An eye-taking color combination, particularly so when you see 5 to 7 large triangular florets open at one time. A medium tall spike, 15 to 18 buds, but still very interesting. Makes up nicely in arrangement work because of its color combination.

Price L 20c M 2-25c S 4-25c B 25-25c

SPIC AND SPAN (Carlson 46) 80 days 442

One of the nicest salmon pinks grown today. Holds 8 to 10 open on tall spikes, with very good placement and attachment. Florets are ruffled and of good substance. Excellent show flower, taking many top honors, and a very good commercial. Propagates well. A good investment for everyone.

Price L 30c M 25c S 20c B 10-50c

SPITFIRE (Evans 42) 80 days 432

A rather hard color to describe, rosy toned salmon, bordering on scarlet, with a white throat and a feather of scarlet salmon. A very strong grower, holding 8 open on tall strong spikes. A good show flower and a very good commercial. Good propagator in fact, good all around and worth looking at.

Price L 2-25c M 3-25c S 5-25c B 50-25c

SPOTLIGHT (Palmer 44) 80 days 413

One of the nice yellows. A clear shade of medium yellow with a small bright scarlet blotch, a very attractive color combination. Will open about 6 on tall strong spikes. Good propagator and good for both show and commercial. You can't go wrong on this one.

Price L 3-25c M 5-25c S 10-25c B 50-25c

STARLET (Baerman 44) 70 days 200

See miniature listing.

ST. EDWARD (Both 40) 95 days 436

A scarlet on the orange side, with a touch of white in the throat. Tall wiry stems, hold 6 or more open in double row formation. Not a show winner, but an attractive saleable flower.

Price L 2-25c M 3-25c S 5-25c B 20-25c

STOPLIGHT (Lins 42) 90 days 452

A fine textured bright red, clear and brilliant. Florets are flat, wide open, and well placed. A slight ruffling adds to their attractiveness. Good propagator. Spikes are tall and straight. Well liked.

Price L 3-25c M 5-25c S 10-25c B 50-25c

STRATHNAVER (Peattie 47) 85 days 500

Here is a white that will hold 6 to 8 florets at least 7" wide on a tall stem, but the trick is to get them on enough spikes to pay. Attachment generally is not too good, although you do get one once in a while that makes the grade. A pure white, very good as to color, but for anything but show purposes or for hybridizing for size, don't buy it.

Price L 50c M 35c S 25c B 2-15c

STYLE PLUS (Wilson 44) 85 days 330

One of the prettiest combinations of pastel shades we have in the garden. Light salmon, blending to a creamy, center — an unusually beautiful combination. The floret is heavily ruffled and frilled. This is one flower we like very much. NOTE—Our stock last year was mixed, as we found out this summer, and if you ordered any Style Plus from us, please advise and we will adjust our error.

Price L 2-25c M 3-25c S 5-25c B 25-25c

SUMMER GAL (Zimmer 44) 80 days 542

An unexcelled show flower, geranium pink, beautifully ruffled with a rose feather. Will hold 6 to 8 florets open on strong tall spikes. A very good grower with both show and commercial possibilities.

Price L 2-25c M 4-25c S 10-25c B 50-25c

SUMMER SNOW (Fischer 49) 85 days 300

A tall growing white with small florets of almost pure white, even to the stamens. Spike is tall with a long expanse of blooms, regularly placed and spaced. Opens well inside, and has the makings of a good commercial.

Price L 25c M 2-25c S 3-25c B 25-25c

SUNLIGHT (Spiller 46) 85 days 416

A very nice light golden buff with large slightly ruffled florets. Will hold 6 to 8 open on a 16-18 bud spike, hardly show class, but nevertheless a very pretty and quite attractive flower. Makes up in arrangement work to an extraordinarily beautiful arrangement. Has a fairly prominent reddish marking deep in the throat.

Price L 25c M 2-25c S 4-25c B 20-25c

SUNSPOT (Roberts 45) 80 days 417

Sunspot seems to have that something we all are looking for, ability to produce tall straight spikes, nicely proportioned. Will hold 8 to 10 open. Add to this an attractive light apricot buff color, set off with a rose spot in the throat and you have a prize winner. Check its show record and see.

Price L 35c M 25c S 2-25c B 10-25c

TARAWA (Palmer 46) 80 days 436

Small triangular ruffled florets of scarlet with a cream line in the throat. Holds up to 8 open on a well proportioned 20 bud spike. Spike is straight. Bulb production fair, but germination is good. A nice glad.

Price L 2-25c M 4-25c S 10-25c B 25-25c

THEMESONG (Klein 47) 88 days 570

A light purple with a cyclamen blotch, an unusual color combination but very distinctive. Holds 6 to 8 open on a 16-18 bud spike that is tall and straight. Placement and facing is good. Try one or two for that unusual color combination.

Price L 2-25c M 4-25c S 10-25c B 25-25c

TITAN (Palmer 39) 85 days 532

Salmon pink on the deep side with 6 to 8 florets open on a tall strong stem. Placement is good, facing good, and the spike is well balanced and proportioned. Good show and good commercial. One of the best we have in the garden for hybridizing work, producing more interesting seedlings than any other cross.

Price L 2-25c M 4-25c S 10-25c B 50-25c

TIVOLI (K&M 47) 90 days 461

A good one—beautiful soft rose shading to a very light throat. The large florets, wide open, 6 to 8 open, give a lot of show, and the color is good to add to it. Placement and facing are usually very good, spike is tall and well balanced. Excellent for show and commercial.

Price L 2-25c M 4-25c S 10-25c B 50-25c

TRALEE (Kreuger 47) 75 days 460

TRALEE performed very well for us this year, producing a number of show spikes, but unfortunately at the wrong time. Silvery rose, quite distinctive, with 6 to 8 florets open and good spikes. Performs well, propagates well, and quite early. Has commercial possibilities.

Price L 35c M 25c S 15c B 10-35c

TUTS BOTH (Both 43) 80 days 422

Outside of burning in the sun, Tuts Both is good. A deep pastel shade of orange, quite eye taking in color. It must be cut when the first bud shows color and opened inside, but even then, it still opens up right to the tip. Excellent for arrangement work, can win on the show table—and moves well on the market.

Price L 3-25c M 5-25c S 10-25c B 50-25c

TWEEDLEDEE (Van Voorhis 38) 85 days 250

See miniature listing.

TWINKLES (Butt 48) 70 days 232

See miniature listing.

VAGABOND PRINCE (Palmer 34) 80 days 391

6 to 8 florets of a mahogany brown shade, set off with a flame colored blotch, on a medium tall spike. A frequent section champion at the shows. Well liked by everyone, good for show and commercial work.

Price L 3-25c M 5-25c S 10-25c B 50-25c

VENIDA (Milo 47) 90 days 460

A very attractive flower in a medium rose shade, with a large creamy white center. Holds 6 to 8 open on medium tall spikes which make up well for vase or basket work, and quite frequently can win on the show table. Worthy of consideration for show and commercial work.

Price L 50c M 35c S 25c B 10-50c

VICTORY QUEEN (Wilson 45) 95 days 430

Deep salmon pink with a cream throat. Sounds just like an ordinary glad from the description, but is very likeable. Attractively ruffled, good color combination, good grower. 6 or more open on tall spikes, good placement and facing.

Price L 2-25c M 3-25c S 5-25c B 25-25c

VIOLA (Kuhn 42) 75 days 279

See miniature listing.

VIOLET DICKINSON (Barrett 46) 90 days 501

A nice white with a faint, not very prominent stripe on the lower petals. The stripe edges a light cream colored blotch, so that we have white, a lavender and then a cream. Neither the cream nor the stripe are heavy enough to detract from its overall goodness. Will open 6 on an 18-20 bud spike. Tall, straight, and good propagator.

Price L \$1.00 M 75c S 50c B 10-25c

WAR PAINT (Kadel 47) 90 days 436

An excellent dark scarlet, which blends darker as it progresses to the throat. Will hold up to 8 open on tall spikes. Holds 20-22 buds, flowerhead good and nicely proportioned. Does not sunburn and makes a good commercial as well as a good show flower.

Price L 50c M 35c S 25c B 10-50c

WAX MODEL (Kreuger 46) 75 days 400

The good sized white blooms on Wax Model make up for the fairly short flower head and give the appearance of more than is actually there. 16-18 buds on a tall and straight spike, with 4 to 6 open. A small lavender throat spear helps bring out the glistening whiteness in the florets.

Price L 20c M 2-30c S 3-30c B 25-25c

WEDGEWOOD (Fisher 47) 80 days 366

See miniature listing.

W. H. HOSMER (Hatch 49) 460

We didn't like this one too well in 1949, but it certainly did itself justice this year. Color was excellent, a lavender on the pink or rose side with a cream white throat. Ruffled florets, crisp and of good texture. Tall straight spikes with 6 to 8 open in the field.

Price L \$1.50 M \$1.00 S 60c B 2-25c

WHITE CHALLENGE (Arnett 47) 90 days 501

Last year our White Challenge had a pink blush to the florets, but this year they came pure white, holding 6-8 large round wide open florets open on a tall strong spike. Has a rather light toned red throat. We saw lots of good ones at the shows and our own lot gave same excellent spikes. One to look at — with good show and commercial prospects.

Price L 50c M 35c S 25c B 10-25c

WHITE CHRISTMAS (Fischer 48) 85 days 500

White Christmas was rather variable in its performance this year, some excellent spikes and some not so good. When you do get a good spike you have a real beauty, holding 6 to 8 florets open on an 18-20 bud spike. Florets are waxy textured, heavily ruffled and have a creamy cast to them before opening. Spike is tall and of excellent proportions. Propagates well, often blooming from bulblets and opens well when cut tight.

Price L 25c M 2-25c S 3-25c B 25-25c

WHITE GODDESS (Roberts 48) 80 days 500

A heavily ruffled large clear white with a very light cream center, hardly noticeable. Holds 6 to 8 open on a 20-22 bud spike, tall strong and straight. A strong grower, blooming from bulblets frequently. Germinates well, propagates well. Very good show spike, in a tough class.

Price L 50c M 30c S 20c B 10-40c

WHITE GOLD (Scheer 41) 70 days 506

An early cream that will produce some excellent spikes. Holds 5 to 6 large clear light cream florets open on tall strong stems, although it could stand a little longer flower head. Good commercial, but seldom wins on the show table because of extremely heavy competition. Florists like it very much.

Price L 3-25c M 5-25c S 10-25c B 100-25c

WHITE MAGIC

WHITE MAGIC (Kuhn 47)

80 days 400

White Magic is another of the clear white in the heavily ruffled group. With a tall straight spike, about 6 open 6-8 buds in color, good attachment and good proportions, it is worthy of consideration. Has a slight violet tinge in the throat. If you go for the whites, be sure to look at this one.

Price L \$1.00 M 75c
S 50c B 1-25c—10-\$2.00

WILL SCARLET (Brown 30)

68 days 236

See miniature listing.

WINSTON (Palmer 41)

80 days 406

It's just too bad that Winston will not open a couple more florets because it has excellent color, Bright, clear, creamy white, gradually shading to a lemon yellow in the throat. Waxy texture with an unusual and pleasing appearance. Seldom holds more than 4 florets open at a time, but they are waved and ruffled. Spike is medium tall. Not a show winner,

but one that appeals to you. Moves well on the commercial market.

Price L 3-25c M 5-25c S 10-25c B 50-25c

YANKEE LASS (Schenetsky 46)

85 days 440

Shell pink without markings, prettier, we think, than Connecticut Yankee its sister seedling. Holds 8-10 open on a tall well proportioned spike. Does not propagate too well, but otherwise it is good, commercially and for show work.

Price L 50c M 35c S 25c B 10-50c

YELLOW BIRD (Kuhn 46)

80 days 210

See miniature listing.

YELLOW HERALD (K&M 47)

80 days 411

We raised a large percentage of show spikes from Yellow Herald this year. All spikes were tall, and straight, florets are of a rich amber yellow shade, with a touch of carmine in the throat. Florets are ruffled and come well attached. Will hold 8 or more open. Should make a good commercial.

Price L 2-25c M 3-25c S 5-25c B 25-25c

MINIATURES

ARIA (Kuhn 48)

78 days 242

An interesting deep pink with a light cream throat that has the earmarks of a good one. Opens 6 to 8 florets on a long spike with as many as 20 buds.

L \$2.00 M \$1.50 S 75c B 1-20c

ATHENA (Koerner 45)

75 days 266

Bright clear lavender, shading somewhat darker towards the edges of the petals. A goolden strip down the middle of the two lower petals adds a distinguishing touch. Petals are lacinated, with a winglike butterfly spread. Excellent for corsage work.

Price 40c any size

ATOM (Hedgecock 46)

80 days 236

A miniature scarlet with a gold edge—one that everyone admires. Very distinctive and very good for corsage work and small arrangements. 4 to 5 open on medium stems, spaced fairly far apart on the stem and like most miniatures, it has a wiry thin stem.

L 25c M 2-30c S 3-25c B 10-25c

ARIA

BABS (Pruitt 45)

68 days 210

A very nice light yellow miniature, heavily ruffled. Buds have a greenish yellow cast before they open. Will hold about 6 open on a medium tall spike. Here is a glad that goes well in corsage and arrangement work.

Price L 2-25c M 4-25c S 6-25c B 50-25c

BROWN ORCHID VanVoorhis 40)

85 days 290

For a miniature, Brown Orchid goes far beyond what one could reasonably expect. Tall, many open, excellent all around performance leave little to be desired as to growth. Color is a velvety brown, odd but attractive.

Price L 3-25c M 5-25c S 8-25c B 50-25c

CRINKLES (Kunderd 16)

105 days 262

A ruffled rose, one of the oldest we list but still plenty good enough to list. Its main fault is its lateness, something not found too often in the miniatures. It may be possible to cross some of the real early miniaures with this one to get a mid season bloomer.

Price L 2-25c B 25-25c

CRINKLETTE (Butt 41)

70 days 224

A beautifully ruffled deep orange, cream throat, with a red stripe. Attractive, with the usual miniature spike formation.

Price L 3-25c M 5-25c B 25-25c

CUPID (Fischer 49)

70 days 300

While not a miniature, it could be well listed in the miniatures for it is a small 300 sized white. 4-5 waxy ruffled white blooms are open on a medium tall wiry stem. Very good for corsage work and any arrangement work where a small white is needed. We like it very much. Good grower and good propagator.

Price L 2-25c M 3-25c S 4-20c B 25-25c

DIXIE BELLE (Lins 40)

100 days 222

A small deep orange that is nicely ruffled. Holds 5 to 6 open on medium tall wiry spikes.

Price L 3-25c M 5-25c B 25-25c

DOLORES (Vasturo 43)

75 days 240

A very attractive miniature—pink with a white throat, a combination of colors that if it were in the 400 or 500 size would have everybody talking about it. It has a clean appearance, and the visitors all like it. Will hold 4 or 5 open on a willowy spike. Very nice for arrangements where you can use a small glad. It is rather slow to propagate.

Price L 25c M 2-30c S 3-30c B 15-25c

FAIRY (Kuhn 46)

75 days 266

Light lavender on the blue side, plain without any ruffling, holding 4 or 5 open on a tall wiry stem. Somewhat hooded, like many of the small ones, but attractive and goes well in arrangements as the color blends well. Attractive. Good propagator.

Price L 1-25c M 2-30c S 2-20c B 15-25c

FAIRY FANCY

75 days 206

A light cream, lightly hooded, but beautifully ruffled and lacinated. Has a red line on a yellow throat. Holds about 5 open on a 14-16 bud spike, with the florets running about 3½". Rather interesting because of the odd flowers.

Price L 25c M 2-25c S 4-25c B 10-25c

FILIGREE (Kuhn 45)

80 days 216

Another miniature that if it were a 400 or 500 size would have everyone taling about it. Buff colored, with wide open lacinated and ruffled florets, very attractive florets. Will hold 4 to 6 open on wiry stems, about average in length for a miniature. Very distinctive and attractive.

Price L 1-25c M 2-30c S 2-20c B 15-25c

FLICKER (Kuhn 46)

75 days 221

A medium shade of orange offset with a yellow throat. A very attractive color combination. There is a small but bright scarlet blotch on the yellow throat. Holds about 5 open on a medium tall wiry stem. Fair propagator.

Price L 1-20c M 2-30c S 2-20c B 15-25c

FLOWER GIRL (Dowling 47)

70 days 200

A very nice pure white with no other color markings. Petals are needlepointed and very attractive.

Price L 2-25c M 4-25c S 6-25c B 20-25c

GILT EDGE (Kuhn 42) 80 days 250

Similar to Atom except for the difference in the shade. Gilt Edge is a light red where Atom is a scarlet. Petals have a small picotee edging of yellow giving a very nice overall effect. Holds 4 to 5 open and medium tall wiry stems. Goes good in arrangements. Good propagator and healthy.

Price L 2-25c M 4-25c S 10-25c B 25-25c

HOCUS POCUS (K&M 49) 62 days 213

A very very early miniature that is startling. Deep golden yellow with a very pronounced red blotch, really spectacular in appearance. Either you like it or you don't. 4 to 6 open on a not too tall spike.

Price L 2-25c M 4-25c S 6-25c B 25-25c

KEWPIE (Brown 30) 65 days 150

A dainty, very small decorative red with a picotee edging. Very popular and a frequent prize winner at the shows. Attractive if you like them on the small side.

Price L 3-25c M 5-25c S 8-25c B 50-25c

LAVENDER & GOLD (Baerman 43) 70 days 366

A "must" for the lady of the house who likes to make arrangements. A beautiful shade of pastel lavender with a yellow throat. The name is very descriptive. Florets are well faced, 4 to 6 open, on tall wiry stems. Its only fault is that the florets are sometimes spaced too far apart. Florists like this one very much. Propagates well.

Price L 3-25c M 5-25c S 10-25c B 50-25c

LITTLE GOLD (Fischer 50) 80 days 212

A golden orange of heavy substance, a little more of the gold than the orange. Nicely ruffled with about 4 to 6 open on nice spikes. Opens well in water. Makes up wonderfully in arrangements. Good propagator. NOTE—This is one of the glads that made a real hit with us this year. Beautiful coloring—you are sure to like it. — Recommended.

Price L 50c M 35c S 25c B 4-25c

LITTLE SWEETHEART (Fischer 48) 85 days 240

Cannot say much more for this than it really is a Little Sweetheart, one that you love at first sight. A delicate pink, blending to a snowy white throat, beautifully ruffled and with a waxy texture that is hard to find anywhere. Excellent grower and propagator. Holds about 6 open on wiry stems medium tall in height. If you like miniatures, this surely is one you should have. NOTE—This is another one with which we are very much delighted.

Price L 25c M 2-25c S 3-25c B 20-25c

NADIA (Leffingwell 37) 90 days 231

For as old a variety as is Nadia, you do not see too much of it. Really, one of the best small ones we have. Upper petals are a bright salmon, the lower petals a deep yellow, very attractive. Will hold 8 or more open on a tall wiry stem. A few of them will crook but most of them come straight. For arrangements the crooks do not hurt. Good propagator. Recommended. Frequent sectional champion at the shows.

Price L 2-25c M 4-25c S 6-25c B 50-25c

OBERON (Stancer 40) 75 days 236

More of an orange than a scarlet, although officially listed as scarlet. Brilliant color and very attractive. Opens 4 on about a 12-14 bud spike.

Price L 3-25c M 5-25c S 8-25c B 50-25c

OLD SOUTH (Almey 44) 85 days 286

An old rose, bordering on darker throat markings in a very unusual and beautiful combination. Opens 7-8 on tall straight spikes, one that never seems to crook.

Price L 35c M 2-30c

OLIVE MARIE BROWN 90 days 222

A blend of yellow and bronze, blended very beautifully together in a small decorative. Holds 5-6 open on a wiry stem.

Price L 3-25c M 4-25c S 8-25c B 25-25c

ORANGE BUTTERFLY (Salbach 27) 90 days 222

Quite an old timer, but still good. Bronzy orange that will hold many open on tall wiry stems. Inclined to crook, but for arrangement work that does not seem to hurt in the least.

Price L 3-25c M 5-25c B 50-25c

PINOCCHIO (Evans 40) 75 days 390

Very unusual in its color combination—Pink, yellow, green, orange and red, all combined in one flower, with no predominant color. Makes an attractive overall picture. Will hold 5 to 7 open in tall stretchy spikes. Florets are fluted and very ruffled. Makes plenty of bulblets which propagate nicely.

Price L 3-25c M 5-25c S 8-25c B 50-25c

PERKY (Hubler 42) 85 days 236

Rolled petals of pure scarlet, very pretty and one of the best of the small ones. Opens 6 to 8 on a medium tall thin wiry stem.

Price L 3-25c M 5 25c S 10-25c B 25-25c

PINK RIBBON (Spencer 42) 90 days 240

One of the nicer pinks that will hold 6 or more florets open at one time. Probably a little better than most of the miniatures. Medium tall wiry stem. The cream throat is slightly peppered with red.

Price L 3-25c M 5-25c S 8-25c B 50-25c

QUEEN OF BREMEN (Zimmer 28) 75 days 266

A beautiful lavender pink with a cream throat. Quite an old timer, but still plenty good enough to stay in the running. Holds 6 or more open on tall wiry stems. Excellent for arrangements and all miniature work.

Price L 3-25c M 5-25c S 8-25c B 100-25c

ROSEMAID (Brown) 68 days 260

A light bright rose that is lovely. Early good grower, attractive.

Price L 3-25c M 5-25c B 50-25c

ROSETTE (Kuhn 42) 85 days 260

A light rose with a rose feather considerably deeper in color. Ruffled florets, well placed on, for a miniature, a rather tall stem. Will hold 6 to 8 open.

Price L 2-25c M 3-25c S 4-25c B 25-25c

ROSY BELLE (Plummer 48) 262

A deep rose miniature that holds about 6 open on an 18 bud spike. Medium tall wiry stem. Has a good show record.

Price L 25c M 2-25c B 15-25c

RUBY (Kuhn 46) 70 days 252

Just a plain red in the medium dark shade, somewhat hooded, but nevertheless, very attractive. Strong healthy grower, holding 5 open on medium tall wiry stems. Early—very good all around.

Price L 2-25c M 3-25c S 5-25c B 25-25c

SILVERSIDES (Kuhn 47) 70 days 262

A bright deep rose with a silvery sheen which holds 6 open on an 18 bud spike. Spike is medium tall and wiry. Attractive.

Price L 1-40c M 1-25c S 2-30c B 5-25c

STARLET (Baerman 44) 70 days 200

A very attractive small early white, with about 5 waxy white frilled florets open on a tall wiry stem. Color is very good. The only objection we have is that the florets are too far apart on the stem, but that doesn't seem to hurt it a bit for either show or commercial work. Well liked everywhere. Propagates well. Very early.

Price L 3-25c M 5-25c S 8-25c B 50-25c

TWEEDLEDEE (Van Voorhis 38) 85 days 250

A mixture of red and gold gives us a prize winner in this one. An excellent small decorative, with 6 or more open.

Price L 2-20c M 2-15c S 5-20c B 25-25c

TWINKLES (Butt 48) 70 days 232

A very good heavily ruffled orange pink, with a dark yellow center. The center has reddish lines radiating to the edge. Exceptionally nice. Holds 4 to 5 open on medium tall wiry stems.

Price L \$1.00 M 60c S 40c B 10-\$1.00

VIOLA (Kuhn 42) 75 days 279

We have only bloomed Viola one year, but were very much attracted to its rosy violet color. We would class it as interesting.

Price L 2-25c M 3-25c S 4-25c B 25-25c

WEDGEWOOD (Fischer 47) 80 days 366

Everybody likes Wedgewood for it is one of the nicest small lavers on the market today. Holds about 5 waxy ruffled florets open at one time, with a rather prominent cream throat, a color combination that is very attractive and one that works well most any place. Spike is slender and well proportioned and medium in height. Propagates well, healthy, good show flower, good commercial — you can hardly make a mistake on it.

L 20c M 15c S 3-25c B 15-25c

WILL SCARLET (Brown 30) 68 days 236

A very dainty orange red that has survived the years. One of the best in the small decoratives.

Price L 3-25c M 5-25c S 8-25c B 50-25c

YELLOW BIRD (Kuhn 46) 80 days 210

A deep yellow miniature that will open more than the usual one. Can hold up to 8 open on a medium tall flower head, wiry strong stem. Round, slightly recurved florets are nicely spaced and faced. Very attractive and very good wherever a miniature can be used.

Price L 1-30c M 1-20c S 2-25c B 10-25c

AUSTRALIAN VARIETIES

In our continual search for newer and better varieties, we secured a number of Australian introductions last year, more as an experiment, to see what they would do under our conditions. We realized that the bulbs would have been dug in February and that we would get them in May, without the usual long rest period. The bulblets also would hardly have had enough time to cure.

Nevertheless, we tried it, and the results were good, as far as bulbs were concerned. We secured anywhere from two or three to ten small bulbs of different varieties about the middle of May and planted them at once. Most of them bloomed for us,—just about what we would have expected from a lot of our own small bulbs—spikes not up to their very best, but good enough so that we could determine color and general characteristics. Then too, we have acclimated bulbs, mostly in the large sizes to plant this year, plus some bulblets which can be properly aged. Most of them bloomed later than normal, but by leaving them in the ground until the last, they all made nice growth.

We also secured various lots of bulblets which we planted about the 20th of May. They were slower to come through than our own bulblets, but did, on the whole, make a satisfactory growth. Had we planted a similar number of lots of our own bulblets, some would have come good, some fair, and some not so good, depending on the variety—so too with the Australian bulblets.

We are offering to our friends the same chance we took last year and are taking again this year. Your orders will be accumulated by us until February 28th, combined and airmailed to Australia. We should receive shipment back from Australia about the middle of May and they will be sent you at once, in time for you to plant them and to see most of them bloom. If you want to take a chance on some bulblets you may do so, but do not expect as good results from bulblets as from small bulbs. Our recommendation is to order small bulbs, they may cost a little more, but you are sure of results. We will have some bulblets that will be about 18 months old to sell this year, and these will be listed under the varieties. We will also have some bulblets from our own growing to sell.

ADOBE (Burns 49)

90 days 407

Deep cream with a light rosaline purple blotch. The petals are overlaid and shade rosaline purple towards the edges. Nicely ruffled. Opens about 8 on a 20 bud 24" flowerhead. Spike is straight with good placement.

Price L \$3.00 M \$1.50 S \$1.00 B 25c each

ALDERMAN (Errey)

We had some very nice spikes from No. 5 bulbs this year. Tyrian Rose color, tall and strong spikes, with up to 8 open. Florets are large and open in good formation on the spike. A cream throat sets the color off nicely.

Price L \$3.00 M \$2.25 S \$1.50 B 25c each

ALL GLORY (Toon 46)

70 days 423

Listed in regular stock.

AUTUMN BEAUTY (Phillips 49)

421

Grenadine pink, bordered with an orange buff, a very beautiful and well named autumn shade. Has a scarlet tongue on the lower petal. Opens up to 8 large 6" florets on a good spike.

Price L \$2.50 M \$1.50 S \$1.00 B 25c each

BRITANNIA (Rowse 50)

452

A mid season deep scarlet—a tall grower and one that never crooks.

Price L 75c M 50c S 25c B 5-25c

CECILY ANN (Errey 50)**440**

We only bloomed this from very small bulbs but it was very good, even from them. Soft coral pink with a cream throat, with 8 or more open on a long tapering spike. We think it is worth looking at. Has quite a show record "Down Under."

Price L \$4.00 M \$3.00 S \$2.00 B 40c each

C ROBERTS (Both 48)**85 days 452**

Cerise red on the orange side, blending gradually to a purple throat. Tall spikes, six open, good placement and a good propagator. Very unusual and to most everyone, an attractive flower.

Price L 50c M 35c S 25c B 10-50c

DAYBREAK (Errey)

A tall growing unusual buff. Will hold up to 8 or 10 open on very long tall spikes. A new and very attractive color.

Price L \$3.00 M \$2.25 S \$1.50 B 25c

DR. PRYOR (Burns 49)**85 days 551**

One of the champions in Australia—a light red of the formal style with a cream throat mark and line down the midrib. Very highly rated as a commercial as well as a show flower. We haven't grown this one, but are taking Dr. Pryor's word for it.

Price L 35c M 25c S 2-25c B 10-35c

ECLIPSE (Burns 49)**75 days 536**

Has a record for the longest spike at one of the Australian shows. Did not do that from a No. 5 bulb, but we can see possibilities. An orange or a light red, with the throat faintly mottled. Holds 6 open on a good spike.

Price L \$2.00 M \$1.50 S \$1.00 B 2-25c

GAY LADY

A tall growing lilac mauve with darker markings, holding 6 to 8 open. Stems are straight almost without exception. There is a creamy white blotch on the lower petals.

Price L \$1.25 M 90c S 60c B 2-25c

GIANT CYCLAMEN (Higgins)**560**

Cyclamen purple, with darker flecking, a variety that comes well recommended for exhibition and commercial use.

Price L 50c M 35c S 25c B 10-50c

GOLDEN BEAUTY (Coates)**85 days 412**

A good deep yellow—one that may crook in hot weather—but one that will hold 8 open on a nice stem.

Price L 50c M 35c S 20c B 10-50c

JEAN GOLDING

A very interesting combination of colors—apricot pink, deepening to peach with a golden yellow throat. Nicely ruffled and very attractive.

Price L \$1.25 M 75c S 50c B 3-25c

MAJESTIC (Rowse 49)**532**

Majestic in its performance and one can see the reason for the name. Salmon scarlet in color with tall massive spikes. Florets are large, well attached and of good substance. Certainly well worth looking at.

Price L 50c M 35c S 25c B 10-50c

MARGOT ELIZABETH (Errey)

A glad that will hold twelve open, with lots more buds in color, is worth looking at. Add to this, an exquisite clear delicate shell pink, shading to cream in the throat and you have one of the best.

Price L 75c M 50c S 35c B 5-25c

MAUVINA (Errey)**566**

A lavender on the rosy side, shading deeper to purple in the throat. Had 6 open on a medium tall spike from small bulbs.

Price L 75c M 50c S 25c B 5-25c

MIRACULOUS (Burns 49)**85 days 560**

A tall growing rose pink with a deeper blotch of pink—a nice color combination. Opens 6 to 8 five inch florets in a formal arrangement.

Price L 01.75 M \$1.10 S 75c B 2-35c

MOONGOLD (Brogden 50)**410**

A medium shade of yellow on a long spike. About 20 buds, six or more open and a nice arrangement of the florets. One of the better yellows.

Price L \$1.75 M \$1.25 S 75c B 2-35c

NELLIE SAUNDERS (McKillop 49)**401**

A tall strong growing white with lavender spears in the throat. Will run into stiff competition in this class with the color combination counting against it. Attachment good, florets firm and crisp, on excellent spikes.

Price L \$1.00 M 75c S 50c B 6-50c

OVERTURE (Errey)

A beautiful shade of pink, shading lighter in the throat, on a spike that leaves little to be desired. Tall, tapering spike with beautifully formed waved florets.

Price L \$3.00 M \$2.25 S \$1.50 B 25c

PINK GLORY (Burns 49)**80 days 440**

A light carmine rose with a cream blotch, which does not fleck. Color is pure, with a rich tone. Attachment is not always perfect.

Price L \$1.25 M 90c S 60c B 2-25c

PRINCESS MARGARET (Burns 49)**466**

A lavender rose color, with the reverse side of the petals of a deeper shade than the front. Has a cream dart in the center of the lip petal. Interesting.

Price L \$2.00 M \$1.50 S \$1.00 B 2-35c

PURE GOLD (Burns 49)**75 days 412**

A medium shade of yellow, with almost no trace of any other color. Grows well, with long spikes and 6 to 8 open. Florets well placed.

Price L \$1.25 M 90c S 60c B 2-25c

QUIBERON (Errey 49)**85 days 416**

A very attractive apricot color glad with a creamy yellow throat aiding in making the combination beautiful. Open 8 to 10 heavily ruffled florets on a tall spike. One of the best releases to date.

Price L \$1.50 M \$1.00 S 50c B 2-25c

RADIANT (Errey 50) 436

Florets of a flame color scarlet, with a small cream mark in the throat. Late blooming. Very attractive.

Price L 75c M 50c S 35c B 2-15c

RIALGAR (Errey 48) 85 days 416

We liked this color combination very much. An apricot orange shading into chrome yellow throat. Will hold 6 to 8 open with excellent attachment. Very pretty and we think you will see a lot of Rialgar when stock is available.

Price L 35c M 25c S 2-25c B 10-35c

ROSY DAWN (Burns 49) 75 days 442

A bright pink with a red blotch in the early group. Should be a good addition to the early cut flower group.

Price L \$1.25 M 90c S 60c B 2-25c

SCARLET MAJOR (Burns 49) 90 days 436

A true scarlet with the edges flaked a bit darker. An Australian release that we have not bloomed, but it is reported to open 8 6" florets with 6 in color. Has a 24" flowerhead. Has a very good reputation "down under."

Price L \$1.75 M \$1.10 S 75c B 2-25c

SEAGULL (Errey)

A very unusual shade—pale silvery cyclamen purple which is quite distinctive and makes up very effectively in arrangement work. Holds 8 to 10 open is the report from Australia. Has a very good reputation in Australia and has promises of becoming a leading commercial down there.

Price L \$3.50 M \$2.00 S \$1.00 B 30c

SINCERITY

See regular listing.

Price L 25c M 15c S 10c

STAINED GLASS (Burns 49) 78 days 470

Amaranth purple, a new shade in a very attractive package. Opened 8 from a No. 5 bulb with a nice long flowerhead. Looks promising.

Price L \$2.00 M \$1.50 S \$1.00 B 2-35c

TALISMAN (Errey 50) 430

A blending of apricot pink with a chrome center overlaid deep salmon pink. Very unusual combination. The outer area of the petals is flesh pink. Opens 8 or more on good spikes. We bloomed from No. 5 bulbs and had very good results.

Price L \$2.00 M \$1.50 S \$1.00 B 20c each

WHITE WINGS (Errey 48) 85 days 500

A beautifully ruffled wide open white that is almost faultless in purity. Tall spikes with 6 or more open and even makes good spikes from small bulbs. Have bloomed this for several years.

Price L 50c M 35c S 25c B 19-30c

WISTARIA (Errey)

Wistaria has a very good rating in Australia and perhaps will do much better from large bulbs than from the No. 5's we had. Lilac or mauve pink, sometimes shaded and flecked cyclamen on a cream throat. Is supposed to hold up to 10 open with plenty of buds. Spikes even from small bulbs, are tall and strong.

Price L \$3.00 M \$2.00 S \$1.00 B 30c each

GARDEN MIXTURE

If you do not care for named varieties, but just want a lot of nice flowers in your garden, why not order our GARDEN MIXTURE? This will give you plenty of flowers, the whole season long, and will also give you a full line of colors. It is not made up of discarded varieties, but is made up as your order comes in. You can have more of the darker colors, or more of the lighter colors if you will tell us when ordering. Of course, none of the varieties are named, they are all mixed together as they are taken from the trays. We know you will be satisfied with our Garden Mixture.

	Per 12	Per 25	Per 50	Per 100
Large bulbs	\$.85	\$1.50	\$2.75	\$5.00
Medium bulbs	.50	.85	1.65	3.00

ODDS AND ENDS

Every year, when writing up our catalogue, the question arises as to the advisability of listing certain varieties. Sometimes, it is a question of whether we have stock enough to list it, sometimes we have a fair stock of the variety, but plan to discard it—maybe we don't like its color, growth, or any number of reasons. Sometimes it is a variety we have purchased to see how it grows in our part of the country, and lots of times they are varieties we carry along for hybridizing purposes—just raising enough to give us the needed pollen. Last year, we listed such varieties as these in an "Odds and Ends" listing—with very favorable comments and results.

The stocks listed below are not large, so do not be too disappointed if you do not get them. Listings are made so that if you want some particular variety, maybe an old timer, maybe some of the newer ones, you can include them along with your order for the other varieties.
